## Peace River Outlet

THE NEED of a direct railway outlet from the Peace River to the Pacific Coast was again brought to the fore in Parliament yesterday. The remarks of Solon Low and William Irvine are of particular interest in Prince Rupert, which is so vitally interested in the Pacific Coast railway outlet for the Peace River since this is the logical outlet point. It is also to be noted that J. R. Macnicol, a prominent Progressive-Conservative member, is taking an active interest in the outlet question.

Little has been done by the government since the historic promise of Prime Minister Mackenzie King away back in 1925 in regard to a Peace River outlet. It is to be hoped that resurrection of the subject will spur the government into action. Support of a few Liberal members now might turn the trick.

## EDWARD LIPSETT

NEWS OF THE DEATH in Vancouver yesterday of Edward Lipsett is received with regret by his many friends in Prince Rupert. Mr. Lipsett for many years had been identified with the business of serving the fishermen out of Prince Rupert through the branch of his business which was founded almost simultaneously with the inauguration of this as an important halibut landing and shipping centre when the railway was opened up thirty-four years ago.

Mr. Lipsett, starting at the bottom, became one of the coast's most successful businessmen. He was almost as well known as a lodge man, club man and entertaining speaker. Through his frequent visits to Prince Rupert over a long period of years he became a familiar and esteemed figure here.

## WILL ATTEND LEGION MEET AT SASKATOON

Immediate Past President Vic Houston, accompanied by Philip M. Ray, secretary-manager of the local branch of the Canadian Legion, are leaving on tomorrow night's train for Saskatoon to attend the twelfth biennial Dominion convention of the Legion which opens on May 23 and ends May 27.

J. S. Wilson, zone representative for Prince Rupert and district, an area which includes Bella Coola, Ocean Falls, Stewart and branches as far as the Bulkley Valley will leave on Friday night's train as local duties prohibit him from departing in time to attend the opening ceremonies.

His Excellency Field Marshal Viscount Alexander of Tunis, governor general of Canada and grand patron of the Canadian Legion, and Lady Alexander, will arrive at Saskatoon on May 22 and will open the convention on Sunday night. Sunday's program will include divine service, church parade to the cenotaph and the March Past at which the Governor General will take the salute, followed by a drum head service. Business meetings will commence early on Monday morning.

Twelve hundred Legion delegates from every province in Canada are expected to be present.

## Letters to the Editor

### MILK SITUATION

Editor, Daily News:  
Permit me the space to analyze the situation as it exists in the milk supply in Prince Rupert today.

Large shipments of milk are now arriving from Vancouver. To handle these shipments only a small investment is necessary—a car and a refrigerator. The same applies to the earnings which these shipments leave in Prince Rupert—when the account is paid the Vancouver dairies and their employees and Fraser Valley milk producers benefit.

Northern interior lands are not developed in this way.

These Vancouver shipments are only made possible, because of the three trains weekly service on the C.N.R. Certainly the way to get more trains is not by shipping less.

During the war we had six trains weekly and there were three dairies in Prince Rupert and we all had cows. The added train service indirectly changed that and left this dairy to handle it all. I can assure you that it has been more of a responsibility than a monopoly and has not been abused.

Canada imposes duty on United States manufacturers so that plants must be built in this country. Similarly the city might tax large volumes of milk coming in from the south when our own is available.

VALENTIN DAIRY,  
H. B. W. Valentini.

verified on or before the 15th  
day of June, 1948, failing which distribution will be made having regard  
only to such claims of which I  
shall have been notified.

DATED at Prince Rupert, B.C. this  
1st day of May, 1948.  
ALFRED EDWARD RODDIS,  
Official Administrator,  
Atlin, B.C. (117)

## JIM WEST SAYS

### ...ABOUT WORK

When I was at that tender age when the folks at home were shaping my character (and look what happened), I got some awfully old-fashioned advice about work.

It was made pretty clear to me that I might be a social liability if I lied, cheated, stole or was careless about other people's lives... but if I turned out to be a LAZY MAN, well then there was no hope. Right thinking society would treat me with contempt.

Unlearning those lessons comes hard. And yet the smartest, slickest people with the most advanced philosophies have got an entirely new slant on work.

Work, it seems, is something a man has a sacred right to demand. Somebody must provide him with work, even if it is the government.

But, say the new thinkers, having got work, a man should do just as little of it as possible.

It's pretty hard to figure out, nowadays, whether a man should do only a little work and be smart, do no work and be a benefactor of mankind, or fall into the old-fashioned, erroneous ways of working vigorously and doing a full day's stint in the belief that if he and everyone else produce more, there will be more things to consume and therefore a happier condition for more people—and lower prices, too.

*Jim West*

"Jim West Says" is sponsored by the British Columbia Federation of Trade and Industry.

### THEATRE PRICES

Editor, Daily News:  
Showing here is the picture "Gone With the Wind" which, if I recall correctly, was here four years ago. Why should the price go up on a picture that is old? Why not keep the regular price for new and old pictures alike so that everybody may have the pleasure of seeing them?

Thanking you for space,

CORA LIDDIARD.

## YOUTH RALLIES PLANNED IN CITY

Bound for Ketchikan, where they plan to hold a series of "Youth for Christ" rallies in city churches for the next three weeks, Clifford Lewis, Chicago organizer of the movement and a vocal quartette from The Prairie Bible Institute, Three Hills, Alberta, were visitors in the city recently.

The group held a rally at First Baptist Church which was attended by a congregation of 80. Mr. Lewis delivered an interesting lecture on the need for a Christ-like approach to living and the quartette sang a number of gospel songs.

Mr. Lewis also organized a "Youth for Christ" committee in the city. The group plans a series of youth rallies beginning May 29. Members of the committee are interdenominational. Mr. Lewis told the gathering that "Youth for Christ" is a tremendous movement that is sweeping across Canada and

## THIS AND THAT

"Hurry, dear, or it will start to rain before you finish."

America and is God's answer to naturalism, modernism, communism and materialism that has invaded our schools and colleges for a generation."

Thousands of young people gather at weekly Saturday night youth rallies and the movement is being found as an answer to delinquency, he said.

You saw it in the News!

### USEFUL INVENTION

Electro-magnets made by passing an electric current through a wire wound around an iron or steel core, were invented by Oested in 1819.

### BLACKHEADS

Get two ounces of peroxide powder from your druggist. Sprinkle on a hot, wet cloth and apply to the face gently. Every blackhead will be dissolved. The one safe, sure and simple way to remove blackheads.

SERVING CANADIANS

THROUGH CHEMISTRY

# Chemistry?

IT DOESN'T  
MEAN A THING TO ME!

If YOU WERE a farmer it might seem that way at first glance. But take another look.

Those fine crops, which mean so much to Canada's health and economy, often depend upon chemical fertilizers. Weed and pest destroyers, orchard sprays too, are but a few of the services that chemical research extends to agriculture.

Through good times and bad, the chemical industry plows a straight furrow, ever moving forward to create better things for farm, industry and home. Look to chemistry with confidence for a finer future... and to the C-I-L oval symbol of an organization devoted to serving Canadians through chemistry.

For instance:  
**HERBATE**  
Among the many contributions of chemistry to agriculture and horticulture is the killer, "Herbate" that eliminates mustard-weed, dandelions, plantain and other weeds without harming grain or grass. It is a product of Canadian Industries Limited, Head Office, P.O. Box 10, Montreal.
