Line's North Star at Montreal airport. He is going to Nantes, France, to attend a congress of the French Society of Ophthalmology.

Dr. Lapointe is believed to be the only Canadian doctor to have successfully restored sight to several patients by grafting to their eyes the cornea taken from those of dead persons. The delicate operations have achieved wide fame for the doctor who has been studying the theory of cornea grafting for many years.

At Nantes, Dr. Lapointe will join many of the world's greatest specialists at the congress of the French Society of Ophthalmology on May 23. Two days before the congress the specialists will meet to exchange the latest techniques in modern surgery. The Montreal doctor has been invited to perform one of his noted eye operations before the specialists during his visit to Nantes.

On his return Dr. Lapointe plans to establish an "eye bank" throughout Canada. He pointed out that many problems would have to be overcome, particularly since the cornea from the eyes of a dead person had to be used within three days.

TINY TOTS' CLASS OUTSTANDING

The Rup Rec Tiny Tot's class has completed another highly successful indoor season's activity at the Civic Centre. This class, which is one of the largest single groups to meet under the Rup Rec banner boasted an average attendance of 45 to 50 pre-school age children at the regular Friday morning classes held weekly since early last fall.

With the advent of the warmer weather the children will no longer hold their indoor meetings but will now be encouraged to take part in the outdoor supervised playground program.

With the help of volunteer workers the Rup Rec staff have taken these tiny tots through a course of group games, march-

ing and singing games, with a view to teaching them the fundamentals of group discipline.

The Civic Centre's professional staff have expressed satisfaction with the season's accomplishments but declare that much of the credit must go to Mrs. E. D. Forward, Mrs. Nell MacDonald, Mrs. J. M. Black and Mrs. H. Nowak, whose volunteer assistance made a successful program possible. Both staff members and the volunteer helpers are looking forward to the resumption of these classes in the fall.
