**PRINCE RUPERT SUPPLY HOUSE**

**1949**

In the current year as in years past, we will endeavour to produce cotton goods at the lowest possible prices. Our efforts, and those of other Canadian mills, to maintain low prices despite higher costs of production and of raw cotton, won acknowledgment of the Prices Committee of the House of Commons. The Committee's report specifically noted evidence that the primary cotton industry had, since the end of price control in 1947, "gone a long way towards preserving as closely as possible the relationship with the ceiling price which obtained at the time of decontrol."

We take this acknowledgment as a challenge to us to continue with as strict a low-price policy as events will permit us.

In production we are making every effort to meet your needs. Through plant replacement and modernization we are endeavouring to keep our mills at the high level of technical performance which for nearly half a century has meant a steady flow of goods to Canadian consumers and employment for thousands of Canadians in the manufacture of first rate goods.

STORE SUPPLIES**

Would be Prepared for Disaster—R. A. Morley New President

Prince Rupert Red Cross Association will seek authority from the B. C. Red Cross Society to spend \$200 for immediate disaster relief supplies for storage in the city. The decision was made at the annual meeting of the organization in the Civic Centre last night which also elected its 1949 slate of officers.

Members felt that a quantity of blankets and clothing should be in storage here for use when needed. At present, the local Red Cross must contact provincial headquarters at Vancouver for authority to spend money in such cases. It was felt that in case of disaster, a quantity of such supplies should be immediately available.

Storage space for the supplies will be made available by the Daily News.

New officers of the organization are:

Honorary President, Bishop J. B. Gibson.

President, R. A. Morley.  
Vice President, Mrs. T. N. Youngs.

Secretary, H. A. Breen  
Treasurer, S. J. Saville  
Executive—Mrs. J. D. Fraser,  
Mrs. C. H. Elkins, Staff Sergeant  
G. A. Johnson, Mrs. Arthur  
Smith, Hawthorn Graham.

Brief reports were given by retiring president, Mrs. C. H. Elkins, and Treasurer S. J. Saville. Mrs. Elkins reported on the resignation of former President Arnold Flaten, who left the city last year, and her own succession to office. She commented on a meeting of regional representatives held at Terrace last summer which was attended by herself and Mr. Breen as delegates from the Prince Rupert Society.

Terrace, she described as the centre of Red Cross activity in the area. Matters concerning

the widening out of the road between Prince Rupert and Port Edward. The contract would let forthwith and work started at an early date. It was also being arranged to hard surface the road from Prince Rupert to Port Edward.

As for the road between Prince Rupert and Terrace, arrangements were being made to put in a rock crusher to provide surfacing material. A new power grader for this end of the road was also being provided. "Personally," asserted the minister, "I will not rest happy until every foot of the road between Prince Rupert and Prince George is paved but that will take time and we will have to be patient."

East of Kwinita there was to be an extensive program including a new steel bridge across the Skeena River at Kispiox for which material had been ordered, a new bridge at Porphy Creek, alleviation of switchbacks between Hazelton and Cedarvale and further straightening out of dangerous curves between Usk and Terrace.

While more money was required for maintenance of the northern transprovincial highway and he would continue to press for it, Mr. Kenney referred to steadily increasing maintenance grants which had been secured for Prince Rupert, Skeena, Omineca, Fort George and Cariboo until a total of \$760,000 had been obtained during the current year out of \$3,000,000 for the whole province. Prince Rupert had received an increase during the past year of \$11,000 from \$50,000 and Skeena \$25,000 from \$120,000, Omineca an increase of \$35,000 from \$160,000, Fort George \$25,000 from \$110,000 and Cariboo \$40,000 from \$190,000.

As for snow removal, Mr. Kenney thought it might be admitted that the Skeena Valley had had a fair proportion of the funds available for this purpose. "I know how desirable it is that the road be kept open in winter" but there was the question if, in view of the traffic, this was economic at this time. It was difficult for even the railway, with its heavy equipment, to keep the railway line clear. Here was a problem that would eventually, as traffic increased, have to be solved in co-operation with the railway with heavier equipment.

J. D. McRae, president of the Prince Rupert Liberal Association, was in the chair over a responsive mixed gathering of over 100 men and women. Mr. McRae expressed the opinion that this district was fortunate in having a minister of Mr. Kenney's ability and enthusiasm to represent it in the government.

TRIBUTES PAID  
E. T. Applewhaite, Liberal federal candidate, introduced Mr. Kenney in humorous vein. Mr. Kenney was a minister to whom a great debt of gratitude was owed for the tremendous work he had consistently done for Prince Rupert and the whole central interior. Mr. Applewhaite took opportunity to deplore the tendency, particularly in the federal field, of governments to operate according to their own views rather than the wishes of the majority.

Mayor N. E. Arnold brought greetings of the city to a "forthright, intelligent and forward-looking" minister. His efforts had contributed largely to the happy era of new prosperity which appeared to be facing Prince Rupert in the development of new forest products.

**SHIPS AND  
WATERFRONT**

Eight carloads of frozen halibut for transshipment East over Canadian National Railways have been landed here from southeastern Alaska during the past twenty-four hours. Yesterday afternoon the Sydney was in port with three carloads from Ketchikan and Petersburg. This morning the Robert Eugene arrived with five carloads from Petersburg and Juneau. It is reported that some six million of frozen halibut still remains in cold storage plants of southeastern Alaska between Ketchikan and Sitka. Much of it is expected to move through here for shipment East.

Northern B. C. Power Co.'s landing barge, with Vic Grant in charge, left Sourdough Bay,

flood damage were dealt with by the meeting.

Mr. Saville reported that collections during last year's Red Cross drive were \$3,849 and that expenses for the year had been \$15.

The matter of appointing a delegate to the annual meeting of the provincial Red Cross Association in Vancouver on February 17 and 18 was left to the executive.

A special committee will be appointed to direct the 1949 Red Cross fund-raising drive in the area.

The matter of organizing blood donors in the city was left in abeyance until it is known whether or not the Red Cross mobile blood donors' clinic will visit Prince Rupert this year.

Seal Cove, today for the Estcall River in the attempt to cut her way through the drift ice with supplies for the Falls River power plant, nineteen miles upstream from the confluence of the Estcall with the Skeena River. As far as transportation is concerned, Engineer John Lambie and his assistant, Bob Rudderham, have been isolated for the past week and a half. However, communication is maintained every day by radio-telephone and telephone.

with a fair-sized list of passengers, C.N.R. steamer Prince Rupert, Capt. Ernest Caldwell, arrived in port at 11:45 yesterday morning from Vancouver, Westview and Ocean Falls, sailing at midnight for Ketchikan, whence she will return here this evening to sail at 11:15 p.m. on her return south.

Robert S. Henry, assistant purser, is back on duty this week aboard the steamer Prince Rupert and congratulations are in order. It is his first voyage since his marriage December 31 at San Raphael, California, to Miss Edith Sheffield.
