Modern Etiquette

By ROBERTA LEE

Q. What should one say when a person insists upon arguing? A. Merely say, "Inasmuch as I cannot agree with you, let's change the subject and talk about something that we both like."

FILM COUNCIL MEMBERSHIP IS GROWING

More than 20 local organizations have taken out membership in the Prince Rupert Film Council, according to Sgt. L. A. N. Potterton, president. The council provides films and projectors free for its members' use at meetings and social affairs.

Following its creation last fall, there was a lag which Sgt. Potterton ascribed to general lack of knowledge of the purpose of the council, but now new groups are joining steadily. Annual membership fee is \$2.50.

Present demand for the films is good, Sgt. Potterton said. The films are kept at the Prince Rupert Public Library and can be drawn by council members in a manner similar to which books are borrowed. A projector and projectionist, if needed, are also supplied by the council.

Available at the present time are films from the National Film Board and University of British Columbia which, theoretically at least, arrive once a month. The old films are returned.

Future plans, however, call for the establishment of an exchange service under which the Prince Rupert Film Council would buy a block of films.

When these have been used, they would be exchanged for a block of films belonging to some other community film council.

In that way, fresh films would be kept circulating continuously.

The council plans to hold its monthly general meeting at the Civic Centre next Monday night.

HOW CAN I ???

By ANNE ASHLEY

Q. How can I wash electric light bulb properly?

A. Care should be taken to wet only the glass part when washing electric light bulbs. Water left in the metal section is liable to cause a short circuit.

Q. How can I avoid having lumps in cereals?

A. Sometimes cooked cereals become lumpy when warming up. If this happens, beat with an egg beater and it will quickly smooth out.

BABY'S HOT LITTLE HEAD

WHEN your baby's head feels hot to your hand it may be because of simple fever common to some minor baby ailment. If so, Baby's Own Tablets will help reduce this simple fever by clearing harmful wastes out of the system.

Mrs. Francis Carroll, of Midland, has this to say: "My little baby was feverish and hot. I gave her Baby's Own Tablets and by night-time she was up and around again."

If baby's fever is not promptly relieved consult your physician.

Baby's Own Tablets are sweet-tasting, easy to take—and have been used with confidence by mothers for over 50 years. No "sleepy" stuff—no dulling effect. Equally good for constipation, teething troubles, upset stomach and other minor ailments. 25¢ at drugists. Get a box today.

SCIENCE has proved there are certain food elements everyone needs for health. If there aren't enough of them in a child's food, serious things can happen—such as stunted growth, soft bones, poor teeth, faulty nerves, loss of appetite, defective eyesight.

Ovaline supplements the diet with elements frequently deficient in ordinary foods. Three servings of Ovaline furnish a significant portion of a child's daily requirements of Vitamins A, B₁, C, D, Riboflavin (B₂), and Niacin and Minerals Calcium, Phosphorus and Iron.

In addition it provides the basic food substances—complete proteins to build muscle, nerve and body cells—high-energy foods for vitality and endurance. It thus acts as an insurance against food deficiencies that retard normal growth.

So if your child eats poorly, is thin, underperforms, perhaps nervous, why not try delicious Ovaline for normal growth and better appetite.
