The matter of improvements to the building was again brought up with Mr. Yoxall's recommendations to the fore. It was generally felt that ownership of the building should be transferred from the village to the Associa tion. It was urged that a meeting should take place between the directorate and the village commissioners in an endeavour to have this vexing problem ironed out. In the meantime, estimates for the completion of the building would be asked for.

J. Lambly offened to start off any drive for funds towards further work on the building with a \$50 donation. The meeting adjourned at a late hour.
