**Out on the line...  
IN HALF THE TIME**

Yes, a modern electric washer  
is a fast worker. It gently forces hot  
soapy water hundreds of times  
through soiled clothing —  
thoroughly and quickly. Imagine  
the backaches, skinned knuckles and  
tired feet, the wear and tear  
on clothes, if you tried the same  
process by hand! Expensive?  
No, a few cents worth of electricity  
will do the largest wash.

A new electric washer is an  
energy-saving, time-saving invest-  
ment. Why not order the model  
you want, in time for next wash-day?
