look at your home through the eyes of a stranger

Could it do with a good coat of paint and a general 'fix up'? Strange how we are apt to notice signs of neglect in someone else's house and overlook the same things in our own. It's a costly tendency, too. For one bit of disrepair

soon leads to another. Wood deteriorates when the paint

wears off. A broken post undermines the whole fence.

It pays to make your repairs promptly. That goes for indoor improvements, too. You save money, time and material, by attending to home repairs right away - before the damage gets worse, And every improvement adds to your comfort and to your pride in your home.

If you need more money than you have on hand to pay for the necessary repairs, see your B of M manager about a low-cost loan. Save by paying cash. And save yourself trouble by paying off all repair bills at once.

Why not make a list of the repairs your house needs today? Then discuss your improvement plans with your B of M manager . . . in confidence. You'll like his helpful attitude.
