Moscow Reacts Sharply To Expulsion of Russian N. York Representative

Brings End to Problem of Refugee Teachers—Effects of Latest Kremlin Order

WASHINGTON, D.C. (CP)—Soviet-ordered halt to all consular dealings between the United States and Russia wrote an apparent end today to the case of the refugee Russian school teachers. The Kremlin's decision came suddenly but not unexpectedly.

The action entails closing of Russian consulates in New York and San Francisco, closing of the United States consulate at Vladivostok and the voiding of an agreement granting the United States the right to open a consulate in Leningrad.

Bulletins

MARSHALL NOT WORRIED

WASHINGTON—Commenting today on the withdrawal by Soviet Russia of its consulates to the United States, Secretary of State George Marshall said the action was "regrettable but not serious." Formal diplomatic relations were not involved since consulates dealt only with commercial waters. The closure of the United States consulate at Vladivostok would be accepted. It had been subject to so many restrictions that it was not of much use anyway, Marshall said.

REWARD FOR MINES

WHAT MIGHT HAVE BEEN

Had there been no World War II and no abdication of the late King Victor Emmanuel, and had there been no dissolution of the House of Savoy by vote (taking the crown away from ex-King Humbert), then Victor Emmanuel, pictured here, third of the line, may have been fated one day to sit on the throne once occupied by his father. Seemingly the least unhappy about the turn of affairs is handsome blonds Victor Emmanuel now at Geneva, Switzerland. Like other more plebeian youngsters he has somewhat of an aversion to study, plays hockey occasionally to go bike riding or play with his miniature "navy." He is shown winding up the propeller of one of his craft.

Murphy Not Being Fired

Defies Ouster By C.C.L. of Miners' Union

VANCOUVER (CP)—Five thousand hard rock miners and smelter workers were automatically removed from the Canadian Congress of Labor fold in British Columbia today when the Congress suspended the Union of Mine, Mill and Smelter Workers (C.I.O.).

Along with the suspension of the Union, Harvey Murphy of Vancouver, its western regional director, is barred from C.C.L. activities for two years.

Murphy is also vice-president of the British Columbia Federation of Labor, a C.C.L. affiliate.

Reason for the ouster as given by the C.C.L. executive did not mention communism but labor leaders here reported that the action was known to be a climax to the battle of C.C.L. leaders to rid the organization of communist influence.

Murphy said he would appeal to the C.C.L. convention in Toronto next month. "I will continue as organizer and worker for the mining industry's employees, Mosher or no Mosher," he said.

(A. R. Mosher is president of the C.C.L. He had been attacked by the U.M.M. and S.W. official paper).

UNOSIA STATE INSIDE PARIS

PARIS (CP)—A new independent state, Unosia, is being born in the capital of France. The tiny sovereign state will cover ten acres of land and will number about 4,500 inhabitants. Unosia is to be the fall home of the United Nations which will sit in general sessions from September 21 to December.

AND "MYSTERY" WITNESSES—Victor Perlo, named by Elizabeth Bentley as the leader of a spy ring in Washington, is shown on the witness stand in the House Un-American Activities committee. Perlo, who was named as an official of the N. R. A. in the committee whether he is or ever has been also refused to say whether or not he knew the man who stood up to face his accuser in the committee. Perlo claimed the protection of the constitution's right in his refusal to answer many questions. Alexander, the New Yorker whose testimony in congressional hearings on the Soviet wartime spy ring is expected to be the whole case, is shown as he took the witness stand in the House Un-American Activities committee. His testimony was short, however. He asked, and was granted, permission to leave the room until his attorney could
