FRASER SOCKEYE RUN IS FEARED LOST

Drivers Damages

— The ancient "can't get blood from stone" has been discredited to the extent of \$1,300,000 during the last three years.

Thousands of drivers have struck and damaged their cars, and many have been injured. The damage to the cars is estimated at \$1,300,000 during the last three years.

Only the authority of the courts can be relied upon to settle the claims. The courts have been slow to act, and the drivers are still waiting for their money.

TWO IN A ROW — Toronto's Cliff Lumsden is pulled from the water after his second consecutive victory in the Canadian National Exhibition's annual 15-mile men's marathon swim. Mayor Hiram McCallum helps the 19-year-old truck driver up the ladder to claim his \$5,950 prize money. Lumsden was nearly a quarter-mile ahead of Tom Park, Jr., of Hamilton, who finished second. Strike Over, Ships Running

S.I.U. and Union Steamships Come to Settlement

The strike dispute between Seamen's International Union and coast steamship companies has been settled, according to a message received this afternoon by Frank Skinner, general agent, Union Steamships here, from his head office at Vancouver.

The steamer Coquitlam will sail from Vancouver Saturday evening instead of tonight and is due here Monday, running one day late.

The steamer Camosun will come out of Vancouver next Wednesday evening on schedule, being due here Friday en route to Queen Charlotte Islands.

Pretend Malik Never Reigned

LAKE SUCCESS, N.Y. — Britain's Sir Galdwyn Jebb took over today as president of the United Nations security council determined to end Russia's Jakob Malik's month long stalemate of pending council moves to localize the Korean war. A spokesman quoted Jebb as saying "We shall turn the calendar back to July 31. We shall pretend that Malik has never been president and get on with our work."

By-election Dates Set

OTTAWA — Federal by-elections in four vacant ridings will be held October 16, it was announced today. They are Welland, Ontario, and Rimouski, Joliet, L'Assomption, Montclair and Montreal-St. Mary in Quebec. These elections will fill all vacancies in the House.

To Preserve S.A. Bushmen

WINDHOEK, South Africa — A reserve may be proclaimed to save the Bushmen—South Africa's vanishing race—from extinction.

Col. P. I. Hoogenhout, native administrator, said a two-man commission, consisting of Professor P. J. Schoeman and Major J. W. Naude, a former police officer, now in the Kalahari desert investigating means of preserving the Bushmen.

These primitive little people now are estimated to number between 2,500 and 3,500 and they are dying out.

They are scattered in south-west Africa over an area of about 60,000 square miles, most of which is inaccessible, unknown and largely uninhabited.

They migrate with the wild animals, following the lightning, which, to them, indicates rain and, therefore water and good hunting.

The idea of a reserve is not so much to fence the Bushmen in as to keep their traditional enemies—the Herero and Ovambo tribesmen—out. The Hereros and Ovambos rate the Bushmen no higher than a wild animal.

They are however, not the only threat of extinction to the Bushmen. They are decimating themselves by child murder, a ruthless pruning of their decreasing numbers in order that the few may continue to exist.

If, as often happens, the infant of a mother who has died in childbirth cannot be disposed of by adoption, the baby is buried alive with the mother. Illegitimate children are also usually put to death. When twins are born one is invariably killed. Because of the severe conditions of life infant mortality is unusually high.

This is not the first attempt to save the Bushman from himself and his enemies. In the eighteenth century an effort was made to persuade this nomadic people to settle down. They were given farms and livestock.

They killed and ate the stock and returned to their hunting in the trackless wastes.

Cost Of Living All Time High

OTTAWA — Canada's cost of living rose to a new high of 168.5 for August 1, the Dominion Bureau of Statistics announced today. This is an increase of one point since July 1.

DIDCOT, BERKSHIRE, England — Two 30-year-old traction engines are to race for a firkin of beer.

Flash

FIRST ALASKA TUNA
KETCHIKAN, Alaska — The first tuna sold here in two years brought six boats \$100 each, or for 15 tons a total of \$6,000. Purchaser was S. Ein-toss.

CHINESE QUADRUPLTS
HONG KONG — Quadruplets, three boys and a girl, were born to a Chinese woman here Wednesday and were reported healthy and well today. The mother is Mrs. Lau Tai Ki.

DEFENDS GORDON
HAMILTON — Frederick I. Ker, publisher of the Hamilton Spectator and member of the Southam newspaper organization, declared today that an attack on Donald Gordon, president of the Canadian National Railways, by the "leftist hierarchy" was quite unjustified.

SHANNON, Ireland — A big Pan American plane, with 62 passengers on board, returned here today. It turned back with engine trouble which developed while 100 miles out on a flight to New York.

RETURN TO WORK
STRATFORD, Ont. — Twelve hundred Canadian National Railways employees here refuse to return to work yesterday, holding the terms of the federal bill ending the strike, to be unfair. However, they went back today.

HANDLING ALL MAIL
OTTAWA — All classes of mail are being handled normally throughout Canada again following the ending of the rail strike, it was announced yesterday.

CIVIL DEFENCE BILL
VICTORIA — Civilian defence drills are to be held shortly in 91 centres in British Columbia, Minister of Education W. T. Straith announced yesterday.

STRIKE AT TORBRIT
VICTORIA — One hundred and twenty workers at the Torbrut mine at Alice Arm, members of the International Union of Mine, Mill and Smelter Workers, are asking for a strike vote. They seek a 9c an hour wage increase and a board rate of \$1.50 per day. Report of a conciliation board was turned down by the company.

DOLLAR HAIRCUT
WILLIAMS LAKE — The price of a haircut here has been raised to \$1. In the Okanagan it is 65c to 75c, but there may be an increase.

Guns Before Butter Now

OTTAWA — It's guns before butter nowadays for Canadians, the Commons was told yesterday. Canada is ready to play its part in stopping Russian aggression and plans to spend large sums on an accelerated defence program and on rearming Europe.

Defence Minister Claxton said Parliament will be asked to vote another \$140,000,000 to \$150,000,000 for Canada's defence needs this fiscal year, including "very substantial help to arm Europe."

"It is sometimes said the democracies have a choice between guns and butter," he said. "For me there is no choice."

He said the threat of aggression must be met by one thing and that is to "stop it" with trained, united strength.

Fishing Industry Is Faced With Disaster

VANCOUVER—The great fall sockeye run on the Fraser River is in jeopardy and salmon canners and fishermen are facing a loss estimated at between \$12,000,000 and \$15,000,000. The huge Adams River run has so far failed to make its usual appearance and, if it does not show up by next Tuesday or Wednesday, the Department of Fisheries says it will have to be given up as lost. Operators are warned to be prepared for the worst.

So far there is only speculation as to the cause of the non-appearance of the fish. One theory is that the great flood of 1948 may have adversely affected the fingerlings that year and that they have failed to return as adult fish.

Olive Branch By Frank Hall

WINNIPEG — Following the ending of the strike, the Canadian National Railways was today moving a record number of 6,000 cars of freight over its western lines.

Freight Movement In West Is Heavy

MONTREAL — Frank Hall, chairman of the negotiating committee for railway workers, today urged the union men to let bygones be bygones as far as the strike was concerned. He hoped that friendly relations would be restored with the railways and that negotiations might be resumed on an amicable basis. It was in that attitude he would re-enter the negotiations.

After Strike—

C.N.R. Getting Back to Normal

"No Unpleasant Incidents," Berner Reports — Wires Back Up

There was not one unpleasant incident during the nine-day rail strike, C.N.R. Divisional Superintendent C. A. Berner said this morning. No damage was caused to equipment, either rolling stock or the track structure, he said, with the exception of telegraph lines which suffered a great deal from storm damage.

Early this morning the only line communication working was the dispatcher's wire, but by noon other wires, including long distance phone, commercial and radio, had been restored. Line crews have been working night and day to get the lines back in. Fine weather is reported from the interior, which helps in the repair work, although high winds along the Skeena are holding up linemen.

When train No. 198 pulls out tonight at 8 p.m. (PST) it will be the first passenger train to leave this terminus in two weeks. The last to leave was August 18. The train scheduled to leave Monday, August 21, did not leave, as it would not be able to complete its run before the threatened strike hit the line.

Notable in freight waiting to be moved are hundreds of cars of lumber throughout the division. People with private spurs who had cars on them have loaded them all and are crying to have them moved.

Trains have been run over all subdivisions after careful inspection of track. Fuel and power supplies are plentiful.

The train from Jasper is leaving this afternoon and is scheduled to arrive here tomorrow night. It will be the first passenger train to arrive here in two weeks, the last having come in Saturday, August 26.

Party Purge East Germany

BERLIN — East Germany's Communist rulers rocked their party and government today with a startling purge of highly placed officials. Six party members, the official party newspaper announced, were thrown out of the Socialist Unity (Communist) party. Four more were ejected from jobs in the Russian backed East German government. More expulsions were predicted.

Area's Most Bitter And Widespread Battle

Danger Germany

Turns To Of International

As Parliament, in session yesterday, considered the railway strike situation, which was principal reasons for being assembled, Hon. Pearson, Minister of Affairs, pledged the government and the Dominion will part in collective anti-communism.

He declared that the conflict might well be Germany under similar circumstances. There might be an attack in Indo-China, the minister saw Germany as the most dangerous danger.

Terrace Wants Elevator Busy

Full Use of Local House Urged by Associated Boards Meeting

The Associated Boards of Trade of Central British Columbia included among many resolutions passed at its convention in Prince George last week one which urged the federal government and the Canadian Wheat Board to use the Prince Rupert elevator facilities to full capacity.

The resolution pointed to the unusually large quantities of grain that are being exported through Vancouver and New Westminster while the Prince Rupert elevator continued idle. The resolution was sponsored by the Terrace and District Board of Trade.

EDINBURGH, Scotland — The villages Wooler and Yettholme are only 15 miles across the Scottish border from each other, yet telephone calls go 300 miles through Newcastle, Edinburgh, Glasgow and Kelso.

United Nations Forces Suffer Heavy Reverses

TOKYO—The greatest Communist offensive so far in the Korean war is now on and the tide of battle is going against the United Nations forces. From north of Taegu to the south coast the North Koreans are making their supreme effort to shove the Americans off the peninsula with one smash attack after another. They are suffering severe losses but are constantly bringing up fresh forces.

Seventeen separate crossings of the Nakdong River have been made and the enemy have succeeded in getting considerable numbers of tanks and armament across.

At one point the Americans have fallen back ten miles. The town of Hamman, thirty miles east of vital Pusan, was taken by the Communists since yesterday but was recaptured by the Americans today.

The Americans are throwing all their airborne resources into the assault upon enemy objectives.

The whole strength of the United States Far East fleet has been thrown into the battle.

Forecast North Coast Region—Cloudy with scattered showers today and tomorrow. Little change in temperature. Winds westerly (20) today. Light tonight and tomorrow. Lows tonight and highs tomorrow—At Port Hardy, Sandspit and Prince Rupert, 50 and 60.

LAYETTE FOR PRINCESS — This special layette will be presented to Princess Elizabeth's baby daughter—Princess Anne—on behalf of the Prince Edward Island Government. The garments were bought from individual prize winners at the Canadian Women's Institute handicraft display at Charlottetown. The layette includes a white jacket, white crocheted dress trimmed with pink ribbon, and a pale pink carriage cover. (CP Photo)
