OBSERVED AT HOBBY SHOW

HOME FURNISHINGS One very practical exhibit is at the far end of the gym. By this exhibit one can see what was learned during the recent U.B.C. Extension Home Furnishing course. There are trilight lamps with shades that have been recovered by Mrs. George Howe and Mrs. W. J. Richards. There is Mrs. A. E. Evans' upholstered chair, Mrs. G. A. Hunter's drapes, Mrs. S. P. Woodsides' padded bedroom chair that was made from a kitchen chair, refinished picture frames and tables and an assortment of footstools and sewing boxes made from cheese and

butter boxes Along the left side wall is the work done in the schools and on the right, work done in the homes. At the left of the door is the lively radio station and on the right an exhibit from Bedfords that includes a small

FINE CAMERA DISPLAY

Probably as illustrative an example of the development of craft technique during the last year is the teen age camera club display hanging on the east wall of the gymnasium. Here is an assortment of a couple of dozen photographs done by members of the club. Mostly landscape pictures, they, nevertheless, reveal an improvement in technique and treatment of subject matter over any of the club's previous exhibits.
