**Does Your Roof Look
Like This?**

**Or is it WEATHERTIGHT
like this?**

If you want a roof that's weathertight and long-lasting — then get Barrett Storm King* Roll Roofing. The 19" overlay provides double coverage over the entire roof. It conceals nailheads, locks them inside, prevents them from drawing with frost or rusting away. The individual rolls lie flat and firm. They're actually fused together when you use Barrett S.I.S.* Roofing Cement. Ask your Barrett Dealer for "Storm King" Roll Roofing — three attractive colours to choose from:

Your Barrett dealer sells Protection Plus

He stocks a complete line of roofing, insulation and weatherproofing materials. He's got what it takes to stop almost any weather. Whether your problem is leakage, seepage, rust or rot — see your Barrett dealer first!

Announcement

Under "Ships and Waterfront" heading in a recent article it was stated longshoremen threatened to refuse to handle cargo in this port. This was vigorously denied by longshoremen and a correction was made in the following night's edition.

Due to no co-operation from Frank Waterhouse and Co. of Canada Ltd., which is the only company now bringing in cargo to this port from the south, longshoremen are refusing to work these ships.

For some time now the longshoremen have been wanting to get a contract with Waterhouse but without results. Turning to recent events, the s.s. Chilliwack was in port last Saturday. A gang of four men was ordered to work the cargo. These men were worked for five hours — then discharged. The following morning — Sunday — the s.s. Chilliwack docked again. The crew men of the boat worked all morning unloading the rest of the cargo.

This has been a common practice of Waterhouse. The longshoremen's union wish to make it clear to the public that we do not wish to refuse to handle longshore work in this port. But owing to the above conditions we have no alternative until we receive a contract.

GEORGE ALDERSON,
Secretary, Longshoremen and Warehousemen's Union (CIO) Local 505. —Advt.

**Demolition
Proceeding**

Demolition of the former United States Army warehouse by S. Madsen of Edmonton is proceeding without interruption. The ramp between warehouse and

ocean dock is now being taken down.

The warehouse will come down in six sections and, working from the west end, demolition of the first is getting under way.

Most of the hard flooring is now out although the extreme easterly end of the huge structure is still completely intact.

**Materials For
Cellulose Held**

The Daily News learned today that, although Columbia Cellulose has enough materials on hand to get on with their work, there are hold-ups in some materials due to strike action on the railways and shipping lines. Work has had to be rearranged to use materials on hand. Continuation of the strike, however, might have considerable slowing effect on work on the project. At present there can be no building up of the labor force.

S. J. McClay left by air yesterday afternoon for a business trip to Vancouver.
