THE OTHER NECESSITY

A few weeks ago, Prince Rupert again discovered there was a fair prospect of receiving a mail delivery system. The only thing really needed now is a railroad system in action.

A-Cup of Cheers

Fifty Canadian boys, including Charles Wilkinson of Prince Rupert, after a tour of Britain are home with impressions that may be remembered for a lifetime. The four meals a day practice came as a new one. They were more accustomed to the "three squares" but welcoming another could not be accepted as a hardship. And there's another refreshment in the run of a day that a Canadian can enjoy to advantage—the afternoon cup of tea. That's exactly what it is. Ask, for example, any Australian!

It Can Indeed!

With more than 160 millions dwelling on this continent, the inspection of the CNR and CPR should and as it undoubtedly will become a vital duty before the lines resume running. There are a lot of cranks in 160 millions and the two vast railways, silent unguarded and open for a full week can invite all kinds of mischief.

File It Away!

People are too busy and worried just now to try and tell any of the thousands of stories and incidents which come as vexing by-products of a continent wide railway strike. But, they will all keep, and deserve being told. Future laughter will help balance present misery.

Provisional Mercy

Don't wish to read the future. It might bother you. To other day we chanced on a copy of the National Geographic, dated March, 1937. There wasn't even the remotest hint of war, or a world on the verge of chaos thirteen years later, not to mention all the horrors in between. It appeared as quite a pleasant old world. Hitler was not mentioned, and Mussolini, top-spot in Italy, seemed happy and looked the part.

Short Cuts!

Establishment of a fish processing plant at Prince Rupert by the Canadian Fishing Co., is good business. The plant is being moved from Carlisle to the Ocean dock. The wonder is looking back over the years, more canneries have not been situated here, the commercial and industrial centre, with plenty of room. Convenience in anything is rarely wrong. Which is most handy? Prince Rupert and her harbor, or the mouth of the Skeena?

New Accounting Partnership Here

Announcement is made that S. Burns Laird, who for some time has been identified with the firm, has been taken into partnership in the public accounting firm of George Rorie & Co.

Pioneer firm in this field in Prince Rupert, the concern was established in 1920 by the late George Rorie under the partnership name of Rorie & Small, chartered accountants. The partnership with James D. Small was dissolved in 1925 and the business was carried on by George Rorie until 1931 when he was joined by his son, George L. Rorie and the firm's name changed to George Rorie & Co. On the death of George Rorie in 1932, George L. Rorie continued under the same firm name until the present.

The new partner, S. Burns Laird, hails from Eastern Canada and holds the degree of Bachelor of Commerce from Queen's University and is an acquisition to his firm as well as to the accounting fraternity as a whole.

MAKE THIS OUT!

Editor, Daily News:

I wish to propose that we wire through our own member, Mr. Applewhite, the suggestion that Prime Minister St. Laurent assume the temporary position of president of the Canadian National Railways during the strike negotiating period because:

First, the Prime Minister has declared the union strikers as being law-abiding citizens and should get behind his own guns.

Second, our president, Donald Gordon, has been maliciously asked to recede from the negotiating committee after having worked so diligently on the Wartime Prices and Trade Board for the welfare of Canada.

Third, it is the general belief that there are "bunch of old hens" trying to run our government.

Fourth, the Canadian National Railways have roughly sixty percent of the lines in Canada with only forty percent of the revenue.

Fifth, our married employees rarely attain income beyond the exemption brackets.

Sixth, our bachelors receive no family allowance and have a burdensome income tax.

Seventh, the proper authorities should bear their part in this great and crucial situation.

SHIPS and WATERFRONT

The week-end storms proved disastrous to some of the fish packers on Hecate Strait. In

packers bringing pinks to Inverness and Sunnyside canneries, the fish were battered about so that a few thousand had to be disposed of. Normally transport of fish at this season is safe, but the unseasonable storm caught packers unprepared with bumper catches in their holds.
