1. The nourishing glass of milk from Grandma is the happy ending to this story. It started when Nature put aluminum in the earth itself. That is why this important mineral is right in the milk we drink,

2. And Nature gave alumin qualities that make it ideal contact with food. Many milk pails s . . many parts of modern milking machines are made of aluminum

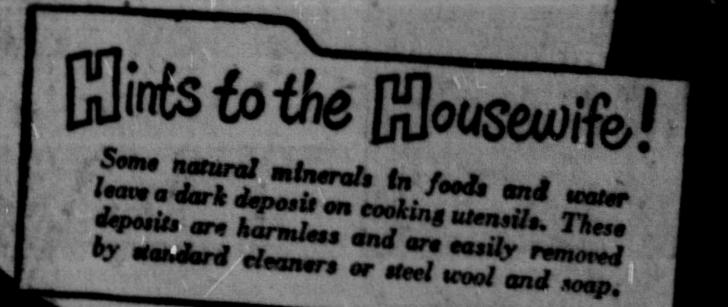

3. From farm to dairy ::: from country to city ... rich, wholesome Canadian milk is being increasingly carried in aluminum containers to reach you fresh and pure.
