## "Let's go sightseeing in Averagetown!"

"Right this way for a tour of Averagetown — a Canadian town or city that might be the one you live in!"

"You'll see it as you never saw it before... hear the behind-the-scenes story of some of its most important landmarks... see sights that will give you new faith in its future. All set? Let's go!"

1. "On our right we have a splendid new high school, with modern lighting, air-conditioning and a host of other improvements that give students a 'lift'. It was built with the aid of life insurance dollars, invested for policyholders, in municipal bonds."

2. "Note the bridge we are coming to now. See how wide, smooth and safe it is! Motorists for miles around bless the day it was built. But few know that life insurance dollars played a vital part in building this, too!"

3. "Here's the town's biggest industrial plant. It shows another way in which life insurance dollars are invested. Imagine what this plant means to its thousands of workers! Imagine how it's helped to expand business all through Averagetown!"

4. "On our left you see Averagetown's new waterworks. And — you guessed it — life insurance dollars are at work here too, helping to pump and purify the water. That's a big job — for the water is used at the rate of thousands of gallons per minute!"

5. "How those life insurance dollars do get around! Here they've helped to build a new apartment building that means a much-needed home to scores of people."

These aids to better living are founded on the work of the life insurance representative. It is largely because of his efforts that so many people buy life insurance and pay premiums — the major part of which is invested in vital projects that benefit Canadians from coast to coast. Thus your life insurance representative is more than a helpful advisor on financial security. He's a helpful citizen, too!
