ing the meringue when cutting  
a pie?

A. Dip the knife into cold  
water before cutting each slice  
of the meringue pie, and see  
how neat the slices are, without  
breaking or sticking.

color of green vegetables?

A. Add a lump of sugar to the  
green vegetables when putting  
them into the vessel to boil, and

## District Is More Active

More Going On Than For  
Two Years, Says Resident  
Engineer

There is more mining activity  
in the district than there has  
been for over two years, accord-  
ing to F. J. Hemsworth, Inspector  
of Mines, who has just returned  
from a trip to the interior.

At Hazelton Western Cobalt  
Uranium Mines Ltd. are working  
on the old Victoria property and  
tunneling to investigate under-  
ground surface indications of  
radioactivity. They have also  
taken over the old Rocher de-  
Boule property which has been  
idle since 1930. They are retim-  
bering portals, cleaning ice out  
of tunnels and fixing up the  
camps. The Victoria tunnel is on  
the 5170 foot level and is now  
224 feet into the mountain. W.  
McGowan is in charge of the  
operation and Martin Jasper is  
engineer.

G. Cates is carrying out a geo-  
physical survey above and below  
the Silver Standard Mine.

At Smithers C. A. Munro's  
Glacier Gulch Mining Co. is  
putting in an air compressor and  
will diamond drill the silver lead,  
and zinc leads, but for the time  
will not follow the gold.

John NSikora and Oscar Nelson  
have a hydraulic operation  
about three miles up Lorne Creek.  
Near the mouth of the same  
creek is the dragline operation  
of Warren and Jones. Another  
hydraulic operation is that of C.  
W. Elder at Gold Creek.

Silver Standard has been in-  
corporated into Sylvan Co., which  
has gained control of the old  
Duthie and Coronado on Hud-  
son Bay Mountain.

Dorreen Gold Mines Ltd. on

Fiddler Creek are installing a  
30-ton mill for ore from the  
Fiddler Creek mine. P. E. Peter-  
son is in charge of operations.  
They hope to be operating by the  
end of September.

Nicholson Creek Mining Cor-  
poration is diamond drilling  
from the surface at Orion adit.  
Kevin Shannon is in charge.

Mr. Hemsworth said that, al-  
though the activity is not great,  
it is encouraging to see more  
activity.
