### CHAMBER TO KEEP WATCH

(Continued from Page 1)

there was nothing the Chamber could do. Had it not been for the Chamber, there would have been parking meters up and down Third Avenue and stop signs at every corner. The Chamber at this meeting, he felt, should appoint a committee to go into the whole matter of power. He moved accordingly, seconded by Dr. R. G. Large, and the motion was carried.

A. D. Ritchie rose to the defence of the present mayor who had only been in office a short time.

W. F. Stone, former alderman, recalled that inquiries had been made in city council as to the adequacy of power supply and Mr. Black had given assurance that there was such adequacy. The present mayor had been an alderman for many years.

Robert McKay, a former alderman, inquired if there was one man present at this Chamber meeting who had ever felt or suggested the need of extra power.

President Felsenthal expressed the opinion that the Power Company had not been sufficiently insured against a power shortage. It was now taking a loss but at the same time, all other businesses and citizens had to take a beating.

Frank Skinner felt that the power company should show its good faith by spending money to assure against recurrence of such a situation as this before asking for a renewal of franchise.

Mr. Black announced to the meeting that the company had now invested \$500,000 for a new

generating plant, a project it had had under consideration for some time. In defence of the company, he suggested that never had such weather condition been seen here as had existed during the last sixty days in which there had not been a fraction of an inch of rain in either place (Falls River or Woodworth Lake). That was something that no engineer would have ever anticipated. As it was there was enough capacity to keep going for another month if necessary.

Robert McKay and Dr. L. M. Greene inquired if the city council had made arrangements to obtain technical advice in the present situation and was told by Mr. Black that such advice could be obtained free from the public utilities commission.

C. G. Ham proposed that the city council be asked to obtain expert advice, possibly from the public utilities commission, but it was felt that this was something that the special committee might consider.

On motion of J. T. Harvey, the utilities committee (consisting of Robert McKay, Jack Marchant, Wilfrid McLean and Robert Parker) was requested to proceed with consideration of the matter at once, ascertain what the city council was doing and report back to a special meeting of the executive of the Chamber to be held on Friday of this week.

G. R. S. Blackby felt that there
