### SOW PANSIES FOR NEXT SPRING THIS SUMMER

Pansy plants such as are sold in flower in early spring may be grown quite easily by the gardener who has a cold frame. The seed is sown in late summer in a seed bed which can be shaded and watered.

Seed of one of the giant! strains should be obtained if one wants large flowers. Violas may also be given the same treatment. All pansies are members of the viola family, but the name pansy is applied to those which have "faces."

If you have a seed bed made

should be given all the light possible and plenty of fresh air. Do not let them dry out. Pro-

tect them from the midday sun. When the seedlings have made their first true leaves they should be transplanted to other flats, where they have more space, or to the cold frame. Florists usually move them to flats where they are planted 2 inches each way; this is called "pricking out." They are allowed to grow here until they are small sturdy plants. The amateur may short cut this procedure and move the seedlings directly from the seed bed or first flat to the cold frame.

Soil in the cold frame should not be overmanured, but should be light and friable and reasonably fertile. The plants should be set in rows, 4 inches apart in the rows, and 6 inches between the rows. Let the plants grow in the open through the fall until the ground begins to freeze. Then fill up the cold frame with dry leaves and cover it with the sash or boards. In severe weather the sash can be covered with straw mats or any such covering, but this is not usually needed.

A. Yes.

# An Explanation of: AND MUNICIPAL AID TAX

(The Social Security and Municipal Aid Tax is to be applied as of July 1st, 1948)

Its purpose is to create revenue for the maintenance of British Columbia's high standard of Social Services and for assistance to Municipalities to meet their ever-rising administrative costs and, concurrently, to relieve the tax burden on real property.

The government is faced with the task of finding an estimated \$21,000,000 for Social Security measures. Rising cost of government is responsible for part of the increase in the Social Security outlay-just as rising cost of living has affected the public generally. Cost of administration, service and supply has gone up enormously and a new source of revenue had to be found to insure payment for expanding social services.

The average worker will pay less than 1% of his spendings as his contribution to the levy because he has been protected by the exemption from the tax of living essentials-food, fuel, rent, medical and dental expenses, and insurance.

The Social Security and Municipal Aid Tax is entirely equitable. It is not a hidden or regressive tax. Everyone contributes. The low-wage groups have either an immediate or deferred benefit.

Everyone should know precisely for what he is paying.

The Social Security tax is specifically designed to improve the general health, protect the aged and relieve want in the province.

# YOU DO NOT HAVE TO PAY TAX ON:

Foodstuffs.

Farm implements and machinery, horses, livestock, poultry and farm fencing. Agricultural feeds, seeds, fertilizers and other materials.

Insecticides, fungicides and disinfectants. Commercial fishing equipment, including boats and engines when used in production of a food catch.

Gasoline.

Coal, coke, fuel oil and wood fuels.

Doctors' prescriptions, invalids' equipment, dental and optical appliances, artificial limbs and other aids. Restaurant meals under 51 cents.

Any purchase priced at less than 15 cents-

## SOCIAL SECURITY means continuance of:

Old Age Pensions. Mothers Allowances.

Child Welfare Service. Control of Tuberculosis, Cancer and Venereal Disease.

Operation of Public Health Nursing and Medical Inspection of School Children.

Payment of Doctors' Bills in all cases of persons in receipt of Social Services of any kind.

Government Contribution of 80% of the Municipalities' Social Assistance costs.

Continuation of Hospital Grants and Mental Hygiene program.
