### Life Is Different And Delightful Over There

Industry, History and Scenery Combined on Interesting Country Across Hecate Straits

the waters of Chatham Sound cedar. and Hecate Strait. Shaped like A distinctive note in the neat smaller islands squeezed into Japanese fishermen. the taper.

In this land there still reside descendants of the mighty Haidas, famous for their graceful war canoes and skilfully carved totem poles. But gone from the beaches are the cedar canoes and gone are the rows of totems that once stood "as thick as fingers on your hand. The canoes have given way to modern fish boats and grave stones wrought by the white man's hand often have honored position before lodge once reserved for family totem.

villages on Graham Island, thing in common—both like the there is a cannery, one of the land they live in. In the matter few operating at present on the of loyalty the Canadas may islands.
