Atomic Control Agreement Effort Is Off

Arab Forces Are Pressing Against Tel Aviv

Capital Bombed Air This Morning

VIV (CP)—While the army of newborn Israel is near the capture of the Arab city of Haifa, the north and has struck seven miles into the Arab zone, ten lives have been taken as the result of air raids which have been pressed on the city of Tel Aviv for the last three consecutive days.

It is believed that the Arab forces took part in the bombing of the city. One of them was a medium bomber. The bomber was apparently aimed at the city of Haifa.

At Cairo the Arab League committee said Egyptian troops had advanced thirty miles into Palestine. The Jewish forces authorized the surprise attack on the city of Haifa. Conditions of the surprise attack that the Jews are to be the conquerors of war and women and children be handed over to the international Red Cross office. A Middle East broadcasting station is reported as having said that Syrian and Iraq troops have joined forces in the Samakh area, on the southern tip of the Sea of Galilee.

Arab volunteers are said to have captured Lydda airport, inside Israel territory less than ten miles from Tel Aviv, also another strip at Qualandia, a Jewish colony.

At Bagdad Iraqi ministers pledged today that the Iraqi Army, together with other Arab armies, would fight to the last man to rescue Palestine irrespective of the nature and extent of foreign support for Israel.

CORRESPONDENT FOUND DROWNED

SALONIKA, Greece — A Greek cabinet minister hurried here from Athens today to investigate the death of George Polk, an American radio correspondent, whose trussed body, with a bullet in the head, was found floating in Salonika Bay yesterday.

Polk, aged 34, disappeared after telling friends he was on his way to interview the leader of the Greek communist guerrillas seven days ago.

NORTH MANITOBA GETTING FLOODS

WINNIPEG — Northwestern Manitoba buildings were prepared today to receive 135 families from The Pas district farms. The families have been forced to leave their homes by spring floods which have destroyed their 1948 crops.

Farmers, Indian trappers and game guardians in canoes and barges will assist in the evacuation.

Milking cattle that are evacuated will graze beside local cemeteries in order to use all available pasture land.

ROYAL ROADS—When "Royal Roads," the Canadian Services college near Victoria, opens for a new term in mid-September, it will be the first time in the history of the college, which will take up their studies side by side. The former Royal Canadian Naval College was reorganized a year ago to form a combined R.C.N. and R.C.A.F. College. "Royal Roads" now plays a large role in the combined service colleges plan for training of officers.

(Above) The castle-like edifice comprising the combined services college "Royal Roads" is situated on the shores of the Esquimalt Lagoon near Victoria. The "Castle," shown above, houses the administration offices and sick bay as well as class rooms. It was taken over by the Royal Canadian Navy in the early part of World War II to train reserve naval officers.

(Below) When a busy day is the routine at the R.C.N.-R.C.A.F. College, H.M.C.S. "Royal Roads," plenty of good wholesome food is welcomed by the cadets. "Tucking" into it are senior term naval cadets (facing camera). Left to right, Robert J. McAllister, Westmount, P.Q.; Hartland L. Price, Quebec City, and Allan C. Rowlands, Westmount, (back to camera) Peter Shirley, Cochrane, Ont. (left), and Dennis H. Pratt, Victoria.

Fishery Industry Training

At the regular monthly meeting of the Prince Rupert local Employment Advisory Committee on Friday evening last discussions and meetings that have been held for some months were crystallized into definite action when an Advisory Committee on Technical Training in connection with the fishing industry was formed.

For some months the local Employment Advisory Committee has been urging action to correlate some of the courses in the High School with technical training in the various phases of the fishing industry. Prince Rupert's most important industry. A delegation met the local school board some weeks ago. The fishing industry, both employers and employees, showed a definite interest in the proposed courses as they recognized both the need and value of such instruction.

At Friday evening's meeting the Advisory Committee on Technical Training was established with the following members accepting definite assignments covering all the aspects of fishing, from the preparations for catching the fish to the final marketing of the catch: Harold Thom, Norman Bellis, H. Robbins, J. C. Gilker, George Anderson and A. M. Hurst.

The United Fishermen's and Allied Workers' Association will be asked again to send a representative. This committee will prepare a brief on the courses needed to give the technical training and with A. M. Hurst, principal of the local High School, will make plans to coordinate the instruction with the practical participation in the industry.

That the industry recognizes the value of such courses is shown by the offer of the Fishing Tractor and Equipment Co. to supply instructors and machinery to enable the students to carry on the necessary practices. Qualified instructors will be sought from the industry to supplement the instruction given in the basic subjects by the teaching staff of the high school. There will be no need for much expense by the local board of school trustees as the intention is to plan the course over a three year period with ordinary basic courses in school directed towards active participation in the fishing industry. That will provide locally trained personnel for the industry as a whole and for advanced scientific positions when available.

The Employment Advisory Committee found the local unemployment situation had been greatly relieved by seasonal activities and with the progress reported in connection with the Celanese project at Port Edward, employment conditions are much brighter. Figures supplied by E. V. Whiting, local manager, showed a reduced number of applicants for unemployment insurance benefits.

Information that an order had been given for five thousand tons of structural steel to the Dominion Bridge Co. at Vancouver for the Port Edward project was an encouraging feature.

It is hoped also that local citizens who will be taking part in the "Clean-Up, Paint-Up" campaign will get in touch with the local Employment Office when they need to hire help. There are many "over forty years" of age available for such jobs. These are experienced, willing workers.

Chairman J. S. Wilson, presided at the meeting, with James Nicoll, J. S. Black, George Anderson, J. C. Gilker, Harold Thom, Norman Bellis, A. M. Hurst, Col. Hamilton Grant, E. V. Whiting and H. C. Whiffin present.

U. N. Commission Gives Up Two-Year Attempt

LAKE SUCCESS (CP)—The United Nations Atomic Energy Commission decided today to end its two-year effort to agree on world atomic control. The vote was 9 to 2. Russia and the Soviet Ukraine voted against the suspension which was proposed originally by the United States, Great Britain and France.

Russian delegate, Andrei Gromyko, declared that the Soviet stands for an international system of inspection and control. No agreement was possible, he added, under the United States control plan.

OFFICERS FOR PRINCE GEORGE

CAPT. E. B. CALDWELL

Senior officers appointed to the Canadian National's new coast passenger ship Prince George, now undergoing completion at Yarrows Limited, Esquimalt, were announced recently by Bernard Allen, C.N.R. manager for British Columbia. Chosen as master of the \$3,000,000 vessel is Captain E. B. Caldwell, of Vancouver, who has been in charge of the company's ss. Prince Rupert for several years. Leslie Wilson, Vancouver, will be chief engineer; A. H. Robson, Vancouver, will be purser, and J. Kerr, also of Vancouver, will be chief steward.

ATOMIC WEAPONS BEING IMPROVED

WASHINGTON D. C. — The White House today reported tests involving three atomic weapons of improved design had proven successful in all respects recently at Eniwetok atoll in the Pacific. The tests are called a "milestone in atomic development."

THE WEATHER

Synopsis
Weather conditions are improving generally over British Columbia today. Clearing skies and higher temperatures are expected in most regions today and tomorrow.

Forecast
Prince Rupert, Queen Charlottes and North Coast—Cloudy, with scattered showers today. Cloudy tonight and Tuesday. Wind westerly (15 miles per hour), little change in temperature. Lows tonight and high Tuesday—Port Hardy 42 and 60, Massett 43 and 55, Prince Rupert 43 and 60.

CHARLOTTE ISLANDS TO BE SERVED IN NEW SERVICE

Regular service between Vancouver and Prince Rupert via all Queen Charlotte Island points will be provided by the Union Steamship Co. in its schedules coming summer which will bring all the comfortable crack liners—Coquitlam, Camosun and Catala—into Prince Rupert as well as the popular veteran Catala. The Coquitlam will carry out the Islands service, the Camosun will take the Vancouver-Prince Rupert-Stewart route and the Chilcotin will again be operated, as she was last year, on special weekly scenic cruises through here as far north as Ketchikan. The Catala will continue on the Vancouver-Skeena River-Prince Rupert route.

The Coquitlam will commence the ten-day service to the Queen Charlottes with the sailing leaving Vancouver June 3 and arriving here early Tuesday, June 8. Thereafter she will arrive here on Saturdays and Tuesdays in the ten-day intervals. Coming north from Vancouver the vessel will do all Island points—both south end and Massett. Departure from here will be at 11 p.m. on the Tuesday or Saturday evenings, also doing all Island points on the way back to Vancouver.

The Camosun, replacing the Cardena out of Vancouver June 25, will arrive here Sunday evenings and return south from here Tuesday afternoons after making the northerly voyage out of here to Alice Arm, Stewart and other points.

The Chilcotin will be here June 14 on the first of her special summer cruises which will bring her to Prince Rupert each Monday afternoon northbound and for a brief call Tuesday nights southbound.

With the steamer Cardena transferring to the Rivers Inlet, Bella Coola run out of Vancouver June 27, the steamer Catala will be relieved of those and other calls northbound and will be in better position to maintain the schedule which calls for weekly sailings southbound from here on Friday nights.

WITCHER IS OF FAME

TRACY BARRETT, pitcher of the Seattle Pacific Coast League, reached first base in his professional career today.

WIVES SEEK PEACE

EMMANUEL, minister of war, called today for co-operation to end the war "before it is too late."

LOVER GIRL SET FOR STAR

MARGARET, Vancouver ballet star, has Broadway and success. She is one of the leads in the York hit show "Look Dancin'."

She is to take over on Broadway since January when she first played under Janet Reed. Then, when she became ill, she took a leave.

Her dancing star started under June Roper and she won a scholarship to the Sadler Wells in London.

Queen of May Hails from North; Outdoor Girl to Reign May 24

The charming little lady, Barbara Ball, who will reign as Queen of the May when the Kinsmen hold their Victoria Day celebration, hails from Telegraph Creek. At present she is attending Conrad Street School but her home is in that little northern community which became world famous as a hopping-off point to the gold fields of the Yukon in '98. Her father, George B. Ball is well known in the north as a guide and packer.

B.C. MINISTERS TO VISIT RUPERT

At least four provincial cabinet ministers will visit Prince Rupert during the coming summer, it was learned by a Daily News representative on a recent visit to Victoria. First will be Hon. E. T. Kenney, minister of lands and forests, who will be here late this month or early in June in the course of a trip north to visit his home town of Terrace and his constituency of Skeena. Other ministers coming later are expected to be Hon. R. C. MacDonald, minister of municipal affairs; Hon. W. T. Straith, minister of education, and Hon. Frank Putnam, minister of agriculture.

TRUST MUNICIPALITIES
Local administration in Denmark is to a great extent entrusted to the municipalities, but is subject to a certain measure of supervision by the state.

ALSO COMES FROM NORTH
Dark curly-haired Bertha (Continued on Page 3)

Vancouver Board of Trade Here

Prince Rupert will be host to a party of 75 to 90 members of the Vancouver Board of Trade on Monday, June 21, if plans initiated by the Vancouver Board at the end of the week materialize. Negotiations have been opened with the Union Steamship Co. for the chartering of the steamer Camosun which would leave Vancouver on the night of June 18, calling at Ocean Falls on the way north and arriving here at 9 o'clock Monday morning, June 21. Remaining here until late that night, the party would sail for Ketchikan where a visit would be made the next day with a brief call here southbound that night. The return voyage back to Vancouver might be broken with a call at Namu or some other cannery point down the coast.

Principal interest of the visit to Prince Rupert of the leading Vancouver businessmen would be a trip to the site at Port Edward where the \$25,000,000 cellulose pulp mill of the Celanese Corporation of America is under construction. The Prince Rupert Chamber of Commerce will make arrangements for the reception of the party here as soon as advice is received of definite decision on the visit.

GRISLY MURDER IN LOS ANGELES

LOS ANGELES — Robert Hansen, aged 24, was booked for investigation on murder charges today following discovery of two partly-cremated human heads and four hands in an incinerator behind a radio repair shop in east Los Angeles.

The human parts were involved as being those of Ralph Dirksen, operator of the shop, and his wife, Oliva.

Hansen was employed in the shop.

FORD SEEKS CUT IN WAGE

Automotive Workers Asked to Take it—Immediate C.I.O. Rejection

DETROIT — Ford Motor Co. asked its unionized automotive workers to take a wage cut today. It was the first time that a major automobile manufacturer had made such a demand.

The proposal, which met with C.I.O. rejection, came against the backdrop of a major strike in the industry and a hint, if not a threat, of a second such walk-out.

Five thousand car plant workers across the country are in some way directly involved.
