C.C.F. Leader Blocks Government's Charity Bill

TORONTO (P-E. B. Jolliffe, leader of the 21-man C.C.F. group, staged a one-man filibuster in the 90-seat Ontario legislature on the Progressive-Conservative government's charities bill.

As a result, it is not nov known when the bill, now in second reading, will come before the House again.

Today the provincial legislators met early to discuss depart cental estimates required before Ontario's 1948-49 fiscal year ends tonight.

### PENSIONS FOR WAR VETS

WASHINGTON - Representative Rankin (D.-Miss.) has introduced a new veterans' pension bill limited to veterans of World War I. The measure calls for \$72 a month for single men when they become 65, provided their income does not exceed \$2,000, or \$3,000 if married, or with dependents.

For Aluminum Industry In British' Columbia

Latest advice from Victoria says two major survey outfits are being sent out April 1 by the Aluminum Company of Canada to make final tests of sites for the establishment of an aluminum industry in this province.

There are at present, two av-.141/2 ailable sites known. One is at Bute Inlet. This is little more than 100 miles north of Vancouver. By tapping Chilco Lake, and other nearby bodies of water a total of 950,000 h.p. can be developed. But this involves a serious interference with the .17½ salmon industry. Breeding would .071/4 be greatly affected.

Approximately 200 miles further north is another group of lakes, largest of which is Eutsuk. .36½ It is here a total horsepower of 1,500,000 can be developed, and this would have no bearing whatever on the salmon fishing industry. The proposed site is in the Gardner Canal area, at Kitimaat, or nearby Douglas Channel. From Kitimaat it is only 40 miles to Terrace and it is assumed a railway would be built by the company to gain connection with the Canadian National Prince Rupert line.

It is heard in Victoria that the trend of evidence for the selection of one of these two areas stands today at 60 to 40 in favor of the larger and more northerly project.
