Teachers Are In Auto Smash

TERRACE.—E. S. Laird, H. Noakes, Miss Moreau and Miss Lips returned to Terrace by train Saturday, having been forced to cancel their trip to the teachers' convention at Prince George through an accident to the car in which they were travelling. Leaving Telkwa on Friday, they were rounding a corner of a hill when they swerved to avoid a car stalled in the mud on the road. The car turned over three times and landed upside up. No one was injured but all were shaken up. Mr. Scutt later returned to Terrace with the car, the rest of the party coming by train.

The slippery condition of the roads was blamed for the accident.

Funeral of Terrace Man

TERRACE.—Funeral service for the late James Cauthers was conducted in the Knox United Church on Saturday afternoon last by Rev. P. M. Mallett, pastor, under the auspices of the Canadian Legion. There were many beautiful wreaths and flowers and a wreath of poppies on the casket. The hymn "Jesus Lover of My Soul" was sung with Mrs. D. L. Norrington at the piano.

J. Barman and S. Kirkaldy of the Canadian Legion were in charge and interment took place at the Kalum Cemetery. Pallbearers were H. Houlden, Fred Hampton, H. King, Ted Johnston, Roy Wilson and B. R. Dodds.

Deceased, a veteran of the First World War, was a resident of Terrace for the past 40 years, making his home on the "Bench." Since the opening of the "Home for the Aged" he has been a patient there where he passed away on Wednesday last week at the age of 78. He is survived in Terrace by one nephew Charles Cauthers.

Anniversary Celebrated

TERRACE.—Twenty-five-years married on October 30, Terrace's popular postmaster and his wife, Mr. and Mrs. S. N. G. Kirkaldy, celebrated with a large dinner party in the private dining room of the "Motel." They were the recipients of many lovely gifts including a purse filled with silver. Among the guests was their daughter, Mrs. J. Arsenault of Prince Rupert, who came up by bus for the event. Other guests included Dr. and Mrs. Stanley Mills, Mr. and Mrs. D. G. Little, Mr. and Mrs. B. R. Dodds, Mr. and Mrs. Peter van Stolk, Mr. and Mrs. Clarence Michiel, Jean Kirkaldy and Mr. Kirkaldy's mother, Mrs. Anne Kirkaldy.

Terrace Hospital Nearly Paid Off

TERRACE.—The Red Cross executive meeting was held in the Nurses' Lounge last Friday evening with Mrs. I. Frank in the chair. Others present included Mrs. Harris, Father Racette, Mrs. E. Brooks, Rev. Mallett, Miss Stewart, R.N., Mrs. C. J. Norrington, Mrs. W. Robinson, Mrs. Newhouse and Miss E. McVicar, the temporary matron. A letter of thanks for comforts while in hospital was read from Mrs. R. Thomson, a long-time faithful member of the executive. A report of "Operation Mercy" was given by Mrs. Norrington in the absence of the chairman H. M. Wightman. Mrs. Robinson announced that the hospital collection fund would start on Friday, November 10, and that this year's objective is \$1700 which will pay off the balance of what is owing. There was \$5000 to be raised in five years but, if this year's objective is reached, the money will have been raised in three years.

Blackwood On Bridge

By Easley Blackwood

Wild and woolly bidding featured this deal. Mr. Dale, the master of bridge Humanities, illustrated another advantageous use of the Pass. His redouble on the first round of bidding was a little out of the ordinary. The East hand would not be used in a textbook as a typical redouble after an opponent's take-

out double. But in actual play you aren't always dealt those "trivia" hands. You just have to do the best you can with what you have and use your best judgment as to the proper call.

Mr. Masters' four spade bid was good. He figured it would effectively interfere with the East-West bidding and, if Mrs. Keen's take-out double was maximum, it might even be makeable.

When the four spade bid came around to Mr. Dale, he rather wished he had started showing his two suits on the first round of bidding, instead of redoubling. He decided to bid five clubs as that call would leave the way open to play at the five range in either minor suit.

Mr. Abel didn't like clubs at all. He bid five diamonds which Mrs. Keen promptly doubled. Mr. Dale experienced a warm and comfortable feeling over this contract. He felt it could easily be made even if his partner had a rock-bottom minimum. Why not redouble, then? The answer is that a redouble would be tactically wrong. It would almost certainly drive the enemy into five spades. And Mr. Dale figured that a double of that contract would not make

Disregard Korea! Forget Moscow! Refrain from further worry over Tibet. Deny the right of marching Communists to put any more gray hairs in your thatch. Think not of Comrade Stalin. He isn't wasting a tinker's darn on you. In other words, let's come back home and study local problems for a change. Isn't the City Hall election next-month?

Beverly van Horne, the heiress, isn't called that any longer. She is Mrs. Beattie of Joviet, Quebec. Great-granddaughter of the man whose resourcefulness and "punch" helped build the C.F.R. when cash was scarce, she recently wed the young man of her choice. But that should not make her any the less an heiress. Perhaps the old railway baron is admiring her for her spunk.

Officers and men of Cayuga, Athabaskan and Sioux, following a spell of hard enough work in Korean waters, will be a week around Hong Kong. Nowhere in the Far East is there a port with more poignant memories for Canada and Canadians. But that need not—nor will it—prevent the sailors from having a sojourn of enjoyment and deepest interest. By the time they return home, they will be much better acquainted with Asia and her ways.

Conservative Leader Drew has been telling London that Canada could feed, clothe and house a hundred million people. This much would be reasonably certain. In the Pacific fisheries industry, more than halibut, salmon and black cod would be consumed. Oh, there's room for a hundred million but not for any waste. Ever notice it?

What is known as the International Association of Pipe Smokers has admitted women to membership, following rather protracted deliberation. With the problem of peace on earth still acute, this is real news. There is something about pipes and tobacco smoke that discourages strife. The Indians knew that, centuries ago. A pipe smoking wife and mother should go far in advancing and preserving harmony in the house. That, in itself, is promising. Two pipes in every home would equal, if not surpass in importance, two chickens in every pot. Timely and fitting, the following comment from the Journal of Ottawa: "The harried housewife could welcome home the harried business man and together they could sit and watch their thoughts grow long and calm in tobacco, the remedy to all diseases. It would quiet the soul and tame the shrew."

CHIROPRACTIC FOR HEALTH TONSILLITIS
Your body is a permanent battleground. Poisons and bacteria are constantly present, ready to attack whenever the resistance is lowered. In the body, certain glands and organs, such as the lymph glands, liver, spleen, kidneys and tonsils, are constantly on the defence. Their job is to tackle the invaders, render them harmless, and eliminate them through the normal channels.
Under today's sanitary conditions, the tonsils have the easiest job, as the other defences can usually handle the enemy. However, in an emergency such as an epidemic, all the forces of the body are required to operate at peak efficiency.
Chronic tonsillitis does not necessarily mean that the tonsils are entirely at fault. It may be that, over the years, they have become diseased or permanently degenerated to the point where their removal may be advisable. On the other hand, it will usually be found that a constant overload has been thrown on the tonsils because one or more of the other defence glands and organs have not been operating efficiently.
Since the nerves control the function of all these glands and organs, the Chiropractor first examines the nervous system to determine whether or not a spinal misalignment is causing pressure on the nerves in question, interfering with the controlling impulses. If so, an adjustment is given to free these nerves, resulting in restoration of normal function to the areas involved. When all the defence mechanisms are operating efficiently, the tonsillitis will disappear.
