EDITORIAL

Join The Civic Centre

DRINCE RUPERT PEOPLE have more or less got used to having their Civic Centre lauded by enthusiastic strangers and it is pretty much routine for anyone who has a visitor in town to guide him proudly through the Centre, then wait for the pleasant comments which are sure to fol-

It is good to have such a showplace. It is also good to have a Centre which is of real use to the community, one that is well managed and which caters to the widest interests of the people. We have such a place and it is becoming greater and more useful every year. But it is not doing so through accident.

Behind the Civic Centre lie the vision and energy of a fairly small group of community-minded people whose only guarantee of success is the interest and support which they receive. Starting tomorrow, they are going to solicit that support. For tomorrow begins the Civic Centre's annual membership drive.

In three years that the Civic Centre has been in operation, annual membership has grown steadily, but not to the amount that it should have done. Considering the size of the city, the percentage is too small. Because whether they choose to admit it or not, there is scarcely a man, woman or child in Prince Rupert who has not at some time, in some way, benefitted by or made use of the Civic Centre.

Last year, membership was in the neighborhood of 1,600 which was an improvement over the 1947-48 year. This year, it is hoped to bring it well in excess of 2,000. With the growth of membership, there is a corresponding expansion of facilities which means that more and more the Centre is approaching its ideal of offering something of interest for everyone.

So when the drive begins, we urge everyone, adult or child, to take out a memberhip. It's fun as well as good citizenship to be a Civic Centre member.

DRIVE STARTS

going to be made to pass this objective as early as possible.

Statistics for 1948 show that more than 190,000 people attended 4000 events held in the Centre during the twelve month period. The actual paid up membership for that period exceeded 1600 and is still growing.

The actual major activities for last year included Rup-Rec Classes, Badminton, Basketball, Junior Boxing, Craft Groups, University Extension courses and others and this year there will be added, bridge parties, art lessons, leatherwork and many other crafts and sports activities. Every citizen young and old, will be asked to take advantage of the many activities of the Civic Centre by taking out membership for the ensuing

TO SHOWER LEAFLETS

To start the Civic Centre membership drive off with a flurry, thousands fo campaign leaflets will be dropped over the centre of Prince Rupert tomorrow afternoon by one of the Queen Charlotte Airlines planes. Each one of the pamphlets will carry a number and the holders of the ten lucky numbers, which will be announced in this paper, will be given a student membership free.

SENATE PASSES ARMS AID BILL

WASHINGTON (P)-The United States Senate Thursday night approved a \$1,314,000,000 bill for military aid to countries in the shadow of Russia's great military machine, by a vote of 55

Final passage came after administration forces defeated two moves to cut the size of the aid

The action set the United States firmly on a policy of re-arming friendly countries in the worldwide effort to bar the doors against communist aggressicn.

G. R. S. Blackaby returned to the city by air Thursday afternoon from a business trip to Vancouver.

Truman Says Russian Discovery Sharpens Need for U.N. Control

WASHINGTON (CP)-President Truman announced today that the United States government has "evidence that within recent weeks an atomic explosion occurred in the U.S.S.R. (Russia)."

A White House spokesman said that the President gave the information to the Cabinet this morning.

In his statement, President Truman said that the develop- tions support." nent emphasizes the necessity His statement made it clear the members of the United Na-

His disclosure came at the time that the British, Canadian and American experts are discussing problems of an interchange of information and the supply of uranium available to each country.

ARREST MAY FOLLOW CRASH

MONTREAL () The Royal Canadian Mounted Police said today that a 41-year-old woman is under police guard in a Quebec City hospital and a man is being sought for questioning in connection with the crash on September 9 of a Canadian Pacific Air Lines plane with a death

toll of 23. The police said the woman is under treatment for an overdose of sleeping tablets. The man is believed to be the husband of one of the victims of the crash.

The police said the investigation concerned the possibilty of a love triangle linked with the tragedy.

MONTREAL (P-Despite official denials that the police are working on a sabotage angle in the September 9 crash of a Canadian Pacific Air Lines crash near Quebec City, it was learned on high authority today that sabotage is suspected, and that "a big break in the case" can

be expected soon. The Canadian Press learned this in the wake of publication in a Montreal newspaper that an R.C.M.P. detective is on the 08½ trail of a woman alleged to have 061/2 shipped a mysterious box aboard the plane which crashed and killed 23.

A mysterious explosion preceded the crash.

The coroner's inquest attributed the crash to a mysterious explosion in the planes baggage compartment.
