Turkey Seeking Protection By Joining Atlantic Pact

LONDON —(CP)— Turkey plans to apply for membership in the North Atlantic Treaty organization, Great Britain's foreign office announced today.

If the application is accepted, Great Britain, United States, Canada and nine other Atlantic Pact members would be committed to defend Turkey in case of attack.

Admission of Turkey would extend the Atlantic Pact jurisdiction deep into the turbulent Middle East for a much greater area than is now covered by the treaty.

Turkey borders on Russia which has demanded two Turkish provinces and dual control of the vital Dardanelles Straits.

Russia Is Rebuffed

LAKE SUCCESS — Russia's Jacob Malik walked back into the security council Tuesday and failed again to oust Nationalist China. Then he accused the United States of aggression in Korea. He demanded the U.S. stop the "flagrant and unjustified aggression" against the people of Korea. He said the Soviet Union was following a policy of peace.

It was his first speech here since he began a boycott last January 13.

The council voted 8-3 against Malik's ruling as president for August that T. F. Tsiang of Nationalist China is the "usurper" and represents nobody. Britain, United States, France, Nationalist China, Cuba, Ecuador, Egypt and Norway voted against Malik's expected ruling that Tsiang was not a member of the council and India voted for it.

Britain and Norway have recognized Red China but spokesmen for these countries said they would not use Parliamentary tricks to settle the question. The Soviet Union, Yugoslavia and India voted for it.

Americans Recapture Hills West Of Pusan

TOKYO—(Thursday)—United States Twenty-Fourth Division troops recaptured hill positions northeast of Chinju and held on today as the critical battle forty miles from the main port of Pusan continued. The arching battle line was marked by burning villages all the way from the southern coast to abandoned Kumch'on which blazed too.

General MacArthur's headquarters said that United States troops and the North Korean Sixth Division were locked in a grim battle east of Chinju at the western approaches to Pusan.

"No gains have been made by the enemy in this fighting in the last twelve hours," a war summary said. (It was released at 9:55 a.m. Wednesday Eastern Standard Time.)

For eighteen hours or more a battle between tanks, artillery and men had raged on heights just eight miles northeast of Chinju.

On the central front Kumch'on, ablaze and abandoned by the United States First Cavalry Division, was scorched in ruins as the Reds moved into the outskirts.

Disputed Yongdok, east coast anchor town, which has changed frequently, was a "no-man's land."

Help for the United Nations forces is near with fighting Marines arriving in force at the southeastern port of Pusan only forty miles from the battle zone. Tank killer bazookas and other weapons, new to the Korean war, have arrived.

Girl May Be Heir Of Dead 'Pen Pal'

JOHANNESBURG, July — Miss Jean Botha, of Oudtshoorn, South Africa, is heir to £10,000 (\$31,000) from a man she has never seen—unless somebody is hoaxing her.

She corresponded with a Mr. R. McCormick, of Eiffel Flats, Southern Rhodesia, through a pen friend club, and they were to have met at Oudtshoorn on June 30.

Somebody telegraphed that Mr. McCormick had died of snakebite on May 10, and later wrote that the body was being sent to London for burial and that the writer understood that McCormick had left Miss Botha £10,000.

Miss Botha, who works in a cafe and as a shop assistant, dislikes publicity and says that she has made no plans concerning the supposed inheritance.

She understands that correspondence is passing between Oudtshoorn and London with regard to the matter.

"We are all satisfied," he went on, "that the commission should continue for the present at any rate to admit late claims on the basis they are admitting them now. But some day we must come to an end of this process. We shall have to give proper notice."

Walk-out Decision Was "Overwhelming," Announces Union Head Frank Hall

MONTREAL —(CP)— International brotherhoods with membership of 90,000 today set August 22 as the date for a strike against Canadian railroads unless their demands for wage increases and a 40-hour week are met. An announcement by Frank Hall, chairman of the Brotherhood's negotiating committee, set the date of the strike.

Earlier spokesmen for 30,000 members of the Canadian Brotherhood of Railway Employees announced that their unions had voted "overwhelmingly" in favor of a strike.

Railways involved are the Canadian Pacific and Canadian National Railways and their subsidiaries.

Workers involved are all in non-operating categories — that is they do not operate trains. They may be joined by operating union members.

The international unions asked for a 40-hour week instead of 48 hours with no reduction in take-home pay plus wage increases of 7c an hour.

Two Canadian unions asked for a 40-hour week, a 10c increase and check-off for union dues.

Railways countered the union announcement with a statement of willingness to go further in meeting employee demands than the conciliation board recommended.

The railways said the strike announcement left them "surprised and disappointed," particularly since the railways were willing to go to \$37,000,000 a year towards meeting wage and hour grievances. They said they were willing to cut working hours from a 48-hour to 44-hour week with no reduction in take home pay.

Work Less But Wages Higher

OTTAWA — How easy it is to reach agreement on contentious matters if democratic practices are followed to bring about a solution was demonstrated at the 56th annual meeting of the accounting division of the Association of American Railroads in the Chateau Laurier Hotel here yesterday when the report of the general committee and the committee of statistics was presented to the 262 attending members.

The delegates were told by J. Elmer Munroe, assistant vice-president and assistant director of the Bureau of Railway Economics of the A.A.R. in a talk on wage reporting that, although railway employment in the past few years had declined some 16 percent wages in the same interval risen 14 percent.

In a comparison between railway and other industries, Mr. Munroe cited figures that indicated that railway wages were much higher in relation to income figures than in other industries. The wages of railway workers reached 50 percent of railway income, said Mr. Munroe, while in other concerns, wages totalled only 20 percent.

FANCY BUT PHONY — London's coat of arms has been affixed to millions of letters, notices, proclamations and debentures in the last 95 years, but it's never been confined legally as the city's own. City Clerk R. H. Cooper discovered the situation and a by-law will be presented to city council to establish it officially. Here it is being nailed to the front entrance of the City Hall. (CP Photo)
