Why Not Here?

WHEAT IS POURING through Vancouver to practically all parts of the world...

What is wanted today, as never before, is wheat. This winter, is making Vancouver an extra busy port...

The flood of grain from Canada's plains flowing out to all parts of the west coast...

When Prince Rupert, years ago, found herself with a third class grain elevator...

It was utilized long enough to demonstrate what a first class grain elevator possesses...

As time passed the movement of wheat this way declined until it came to a full stop...

The weeks, the months, the years pass and there is left but desolation...

It is all very well to hear excuses after excuse, but the big fact today is that of the manifold problems...

The money of Canada, contrasted the splendid idea of Prince Rupert...

The people of Canada should realize it their best hope through the proper channels...

CONFUSION IN MALAYA

Political Clock Turned Back Many Years

By ROY MACARTNEY

SINGAPORE (Reuters)—Chinese Communist terrorism in Malaya, although it started only six months ago...

Progress towards self-government and a common Malayan citizenship for all races has been halted...

But success at this time could only be a step towards working the federation and a United Malaya...
