The rain may fall on Prince Rupert but the sun shone brightly for Bill Lambie in September. Bill, who is northern supervisor for the Monarch Life Insurance Company was a busy man last month . . . so busy, it was learned today, that he set a new sales record by producing \$280,000 worth of new business for his company.

The tall, ex-ball player, and popular sports fan was too modest to let the figure out, but while he was in the south watching the World Series on TV, his company compiled the figures. Bill has made an outstanding study of annuities during his spell with Monarch and, as he says, he'll be glad to discuss the subject with anyone any time they wish.

J. S. Wilson Re-Elected Dental Clinic President

Any suggestion of fluoridation of the Prince Rupert water supply as a means of preventing dental decay should come from a group of citizens rather than a government body, Dr. S. F. Carr, Skeena Health Unit director told the Prince Rupert Children's Preventative Dental clinic last night.

Questioned by clinic president J. S. Wilson, Dr. Carr said it had been found in the United States that any move towards fluoridation that came from a government agency was nearly always voted down. When the matter was approached from the citizens themselves in an effort to prevent dental decay in the community the operation was usually passed when the matter came to a vote.

DEMAND CHLORINATION

He likened the battle which he said customarily followed any move toward fluoridation of a city's water supply to that which resulted in Prince Rupert when the army authorities, alarmed at the gross pollution of the city water had demanded chlorination.

Dr. Carr said he had on hand all necessary information as to the various methods of fluoridation, including cost, to put the system into operation in Prince Rupert.

At the meeting J. S. Wilson was re-elected president of the clinic and Father O. P. Mohan named vice-president. The incoming executive, composed of two members from each school P-TA, Dr. Carr for the B.C. government and a dentist in an advisory capacity from the B.C. Dental association, would appoint a secretary-treasurer.

CO-OPERATION GOOD

Mr. Wilson said the clinic had had wonderful co-operation from city dentists and it was suggested that to help the dentists it would be advisable that the P-TA representative accompanying the children should stay in the waiting room to keep control of the youngsters.

Money for the clinic service, \$4 for each child, should be sent in with the applications. Secretary-treasurer Derry said that next Wednesday those children in Grade 2 whose dental work was incomplete when they were in Grade 1 could be started. The following week, he believed, work on the new Grade 1 pupils could begin.

Those attending were Mrs. M. Ridsdale for the IODE; Mrs. M. Ritchie and Mrs. E. Orom for Conrad; Mrs. H. Pinniger, Borden; F. H. Thomas, Kinsmen; L. M. Rice, Canadian Legion; Ald. William Bremner, City of Prince Rupert; Alex Haig, Rotary club; Dr. S. F. Carr, Skeena Health Unit; Mrs. E. Sinclair, King Edward; J. S. Wilson, P-TA Council.

The meeting passed a motion extending sympathy to Mrs. Jens Munthe and noted the clinic's indebtedness to Dr. Munthe who helped originate the children's dental clinic here.

Mother To Avoid Color Bar By Taking Daughter To U.K.

NEW YORK (AP)—Mrs. Bettine Field Bruce, daughter of the publisher and department store magnate, Marshall Field, is seeking court permission to take her daughter by a previous marriage to England to rejoin Mrs. Bruce's present husband, a Negro. The 30-year-old Mrs. Bruce says that because of racial difference she did not elect to live with her husband, Eldridge

Bruce, 34 in "a segregated community" in Washington while he was studying at Howard University.

However, she says he now is studying in London and that they have bought a home in England in "a non-segregated community."

Mrs. Bruce's action was disclosed Tuesday in New York Supreme Court. It concerns her daughter, Bettine Goodall, 9, by her marriage to Dr. McChesney Goodall, Jr., a Yale medical school professor.

Custody of the girl was given Mrs. Bruce in 1947 when she obtained a Nevada divorce from Goodall. He was given rights of visitation. Goodall contends that the custody agreement prohibits either party from taking the girl out of the country.
