A NATURALIST working in the jungles of Africa uses a portable aluminum elevator to get to the top of 150-foot trees to secure samples of plant and animal life. He simply shoots a line from a rifle over a sturdy limb, attaches it to the elevator cage and hauls himself up by working a hand winch fixed to the cage's floor.

His one-man elevator is almost certainly made of Canadian aluminum. For by putting untamed "white water" to work creating electrical power, Canada has made itself the largest exporter of aluminum in the world. Aluminum Company of Canada, Ltd. (Alcan)

CANADA HAS TURNED OVER to the United Nations the sum of \$800,000 as its contribution to the U.N. Expanded Program of Technical Assistance for 1953. Canada's contribution represents full payment of the amount it pledged for the current fiscal year. Here, Ambassador David M. Johnson, Permanent Representative of Canada to the United Nations (right) hands checks to U.N. Secretary-General Dag Hammarskjold. The program now operating in nearly 100 different countries and territories is already achieving effective results.
