

**TOO MANY DEER**  
NORTH BAY, Ont. (CP)—William Avery was driving on a highway near here when he was confronted by three deer. He managed to avoid two of them but struck the third, which appeared in the bush despite injuries. The front of the car was badly damaged.

**CONSTABLE G. E. Barclay** has been charged with manslaughter in the death of 14-year-old Garfield Belfon who was shot in the basement of a Toronto dental supply company. Barclay said he was investigating a burglary in the basement of the building Sunday night when a crate was apparently pushed toward him, knocking him backward. As he fell his gun discharged. Three alleged companions of the boy have been remanded on charges of breaking and entering.

**Sometimes Aces Must Be Discarded To Make Bid**

A takeout double after an opening bid of one in a major suit usually shows ability to play the other major. Mr. Masters lacked that ability in today's deal so he chose to overcall instead of double.

With as much as three aces, Mr. Dale didn't feel he could stay out of the auction. His partner's failure to make a takeout double made it extremely unlikely that there was a good heart fit. His actual two diamond bid was a forward-going action and was so construed by Mr. Masters.

To test out the possibility of a no trump game, Mr. Masters bid two spades to show a stopper in that suit. With this information, Mr. Dale bid three no trump.

The contract was no laydown. In view of his awkward singleton in clubs Mr. Dale had to handle the situation just right. The king of spades was opened and he let it win. He also ducked the following leads of the queen and jack of spades, on which Mr. Meek discarded clubs. Winning any one of the first three tricks would have resulted in defeat.

At trick 10 Mr. Abel had no better lead than another spade and this was won with the ace on the board while Mr. Dale discarded the ace of clubs.

All of dummy's clubs were now run, getting everybody down to four cards. Mr. Meek's hand didn't matter. Dummy was left with queen and one in each red suit. Mr. Dale had a doubleton ace in each red suit. On the run of the clubs Mr. Abel had been forced to let go of his good spade and his last four cards had to be king and one in each red suit.

On the bidding, Mr. Abel figured to have both red kings so at trick 10 Mr. Dale led to his ace of diamonds and put Mr. Abel in with another diamond lead. The resultant lead away from the king of hearts gave him two tricks in that suit—and his contract.

**Chimney Fire**

Firemen were called out yesterday afternoon to a chimney fire at 512 Eighth Avenue West. No damage was done by the chimney flare-up at the home of R. Greissel.

**Canada Wins Wheat Crown**

CHICAGO (AP)—Canada Sunday won the wheat crown of North America for the 25th time at the International Livestock Exposition.

The new wheat king is Fred W. Hallworth, 46, of Taber, Alta., who took up farming only three years ago after 25 years in electrical work. His "Reward" variety of hard red spring wheat was selected as the most nearly perfect of hundreds of samples entered.

**SENSATIONAL NEW "INSTANT" STARTS BREAKFAST VOGUE FOR "CUSTOM-MADE" COFFEE**

Marvellous 100% Real Coffee Made "Strong, Medium or Mild" Right in the Cup

At breakfast you could always get your toast light or dark—your bacon medium or well-done—your eggs 2, 3 or 4-minute boiled. But your coffee? Well, you just got coffee!

The coffee might be too strong for you—it tasted bitter. Or too mild for you—it tasted weak. But if you were in the minority—too bad! After all, one pot of coffee can't satisfy everybody's taste.

But then came the revolution—the "Coffee Revolution"! Now the most forgotten "little man" can get just the cup of coffee he likes! (No matter if the mother-in-law can't stand such strong coffee. Or if Cousin Joe from New Jersey demands it "blacker than your hat!")

Seriously, though, it's the women who make the coffee who brought on the revolution! It was they who discovered the wonderful new Instant Chase & Sanborn, and started serving it for breakfast.

First of all, here's 100% real coffee that really tastes like it. Chase & Sanborn scientists saw to that! They took on the job of producing an "instant" worthy of Chase & Sanborn's 100-year-old coffee reputation. They never relaxed till they had succeeded in extracting from the finest coffee beans the color and texture—the rich robust flavor and aroma of freshly ground coffee.

Next, housewives decided that this definitely superior "instant" plainly belongs wherever and whenever coffee is served. And then, everybody caught on to the other important benefit. Cups of Instant Chase & Sanborn can be "custom-made" to each person's taste. Good-bye to the old one-pot handicap!

**Farewell to Grounds**  
For the housewife, Instant Chase & Sanborn means the end of that dreadful after-meal chore of scouring a stained coffee pot and disposing of coffee grounds. Here is the modern, dainty, trouble-free way of serving fine coffee.

**Big Savings, Too**  
Budgeteers are excited about the savings on Instant Chase & Sanborn too. The regular size jar makes about the same number of cups as a pound of regular ground coffee. Yet it sells up to 40¢ less than a pound of regular coffee.

**New Vaccine Developed in Toronto Used on Troops to Combat Influenza**

TORONTO (CP)—The development of an influenza vaccine by the Connaught Laboratories in Toronto may someday make it possible for the general public to be inoculated against the virus.

Although it is not yet ready for general use, the vaccine has been used on armed services. Results are still being assessed.

Last winter Dr. George Dempster, who is responsible for the production of the vaccine at the Connaught Laboratories, inoculated 100 nurses and 80 medical students who had volunteered for tests. The 180 persons showed an appreciable increase in the antibody levels of their blood but because there was no influenza epidemic in Canada this year Dr. Dempster was unable to make any important assessment of the protection afforded by the inoculations.

The Connaught Laboratories have been producing the vaccine since the pandemic outbreak of influenza in 1918-19. Latest factor in the fight against the 'flu is the haemagglutination test. The test shows the antibody level of the subject's blood.

Research in the production of a vaccine for influenza is subsidized by defence research board grants.
