

Annis Stukus Appointed Manager-Coach Of Vancouver Football Club Entry

VANCOUVER (CP)—President Art Mercer said today the Vancouver Football Club "has come to an agreement" with Annis Stukus to become manager-coach of the club.

Mercer said the agreement was made by long-distance telephone conversation.

His contract will run to the end of 1955, Mercer said.

The Toronto sportswriter and former coach of Edmonton Eskimos of the Western Interprovincial Football Union expects to arrive in Vancouver "by the first of April."

"We do not intend to disclose salary terms," said Mercer.

Announcement of the agreement ends weeks of speculation over the managing-coaching position for the club.

Vancouver was admitted into the WIFU at the annual meeting in January, and will play its first game in the 1954 season.

Stukus has been connected with Canadian football for more than 20 years, first as a player, then later as a coach and writer.

Stukus was in Vancouver on Monday and Tuesday, flying back to Toronto Tuesday night.

Before departing he said he was interested in the offer by the VFC.

A Vancouver sports story on Wednesday said the new coach sought a three-year contract, at a salary ranging from \$10,000 to \$15,000 yearly.

There are only two other manager-coaches in Canadian football—Carl Voyles of Hamilton and Frank Clair of Toronto.

Stukus was highly recommended to the VFC when several delegates visited Edmonton late last year.

Six-man high school "touch" football was Edmonton's only grid fare in 1949, when the ex-Toronto Argonaut star moved into the oil capital with an ambitious selling program that converted Edmonton into Canada's most fanatic football city.

A great advocate of minor league farm systems, Stukus also installed junior and full-scale prep football in Edmonton. The juniors have been in the Canadian final twice in two years.

On his arrival here—if he won the job—Stukus told the meeting he would commence selling the game and building a title contender immediately.

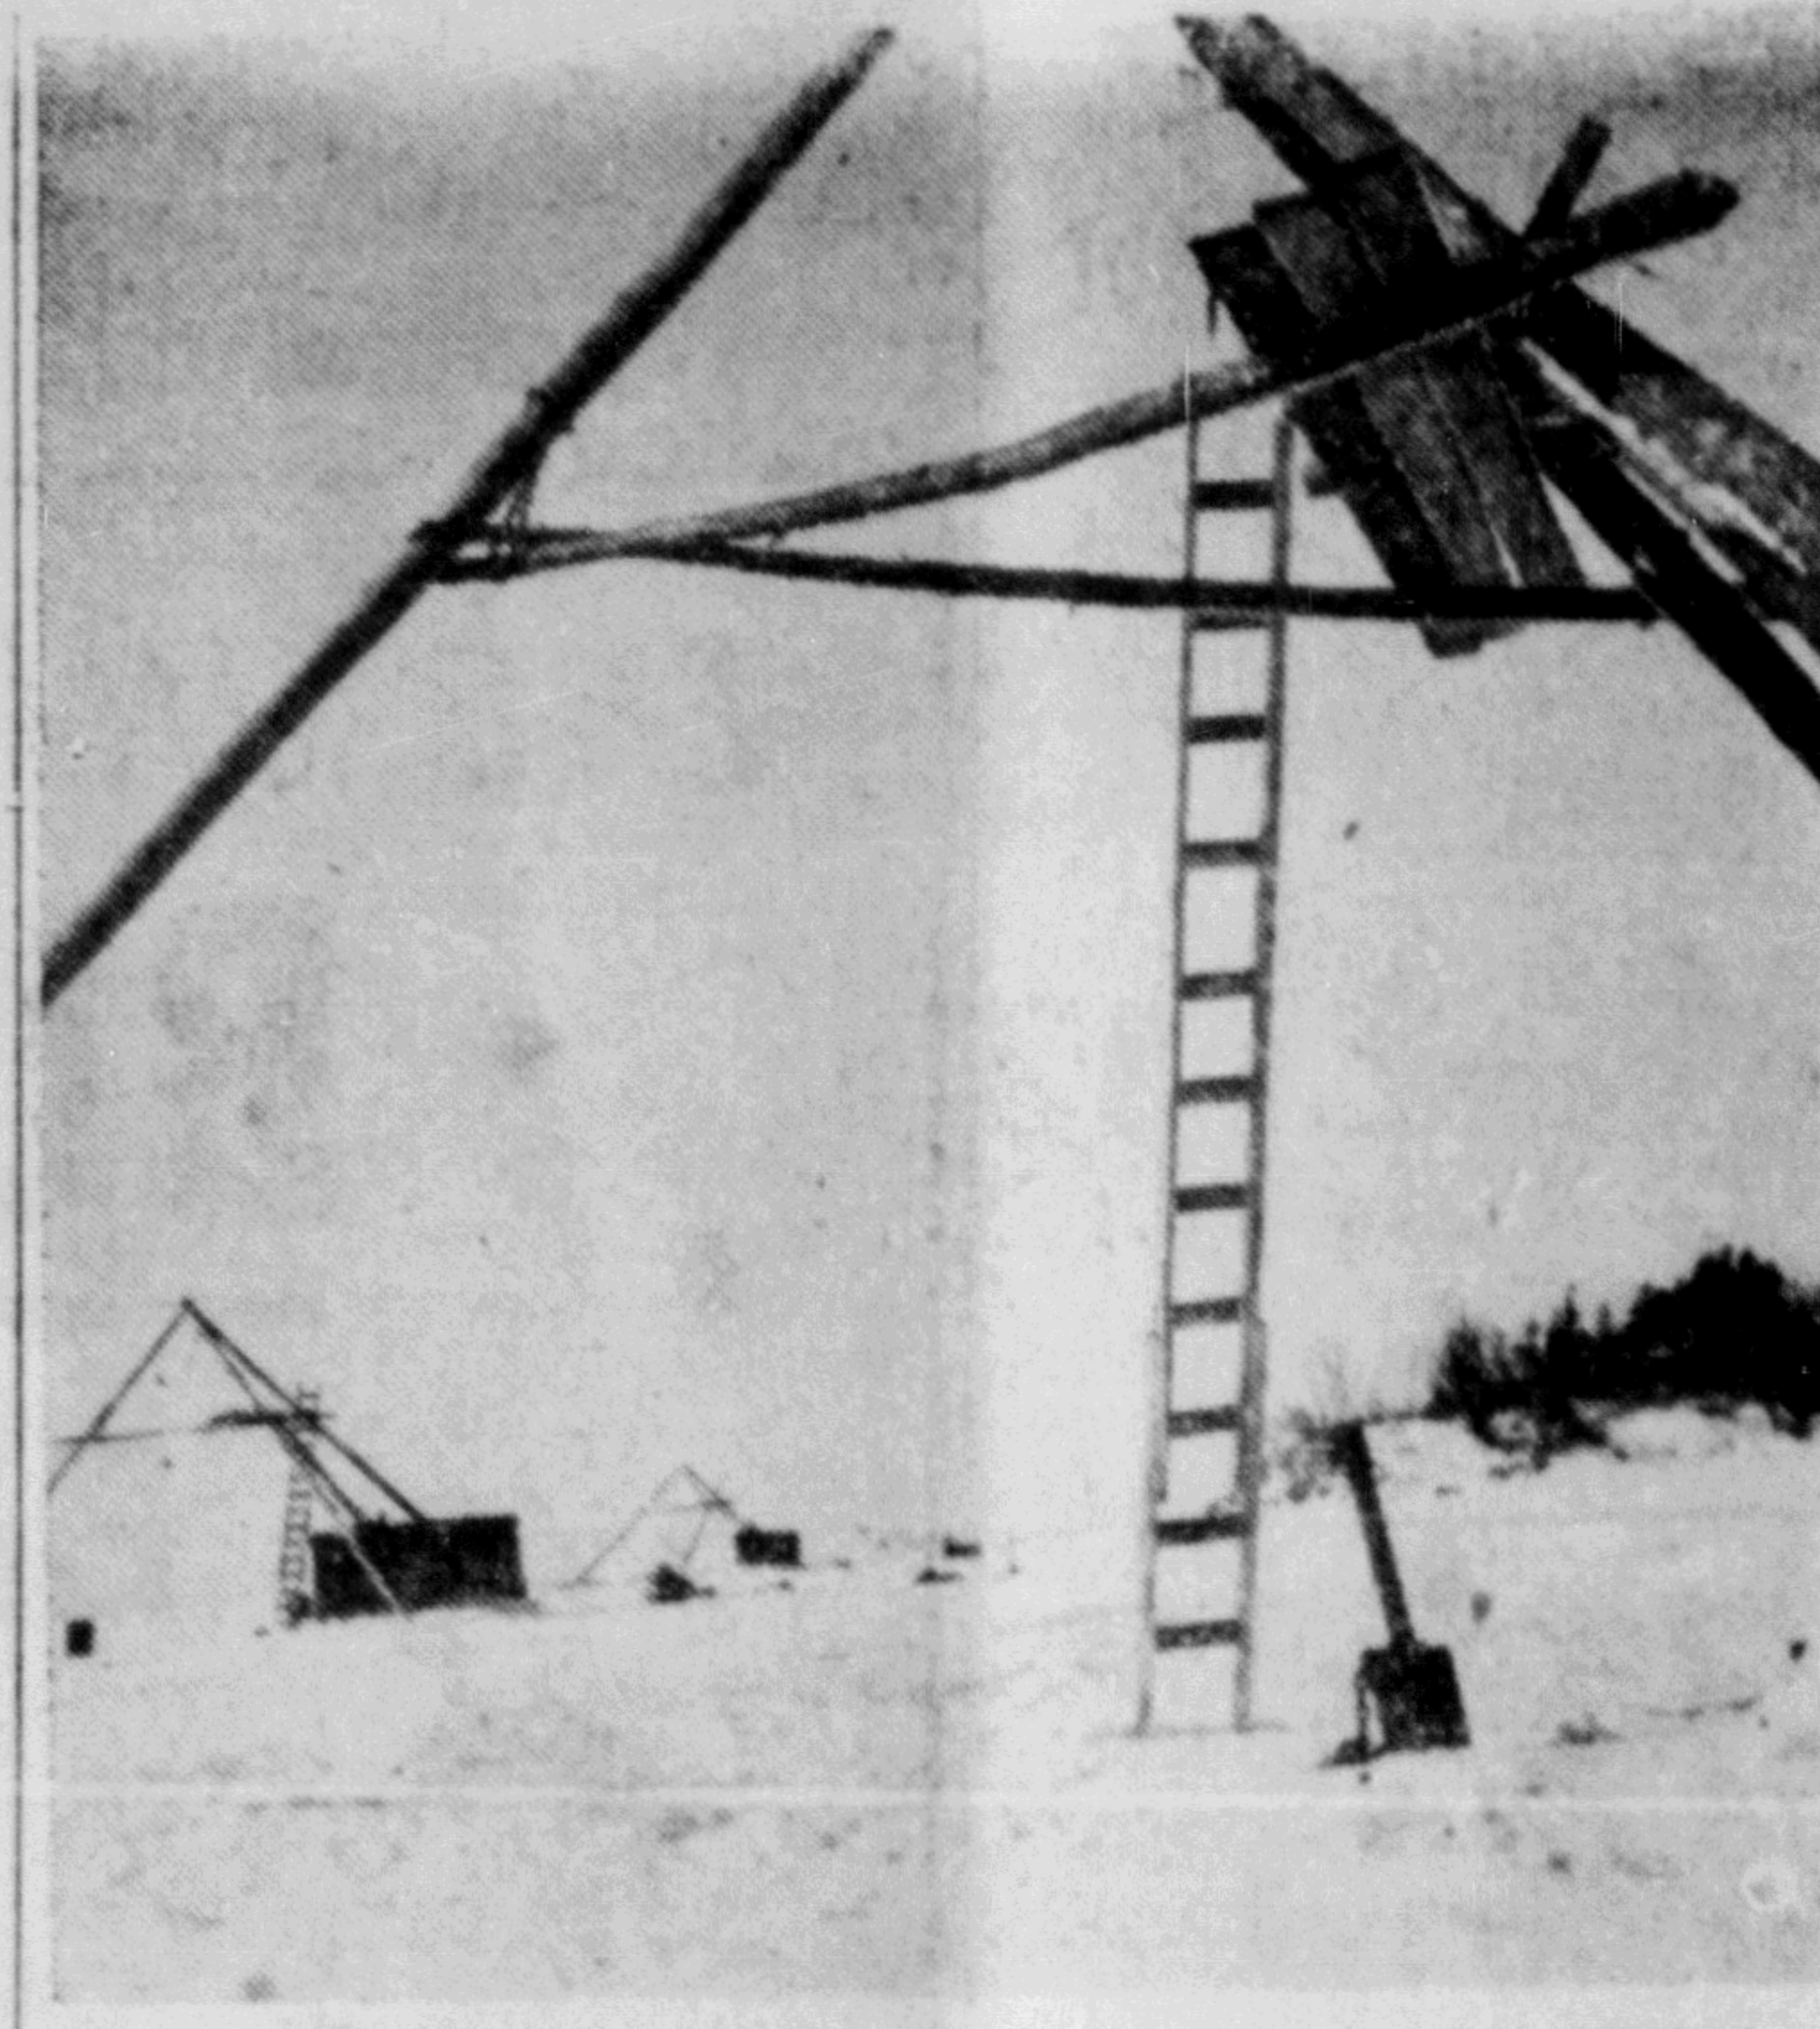

"One of the most important things is the forming of an intermediate league next season," explained Stukus who played for four Argo Grey Cup champions.

Stukus added he would call a meeting of all junior and high school coaches, and map plans for an energetic spring training program.

"I have all the confidence in the world" in kids. Give them a chance and most of them will come through," he said.

A veteran campaigner who is familiar with every pitfall of selling a new entry, Stukus offered realistic advice to the directors.

"You've got nothing but a nice idea. But when you see it grow into reality, it's a great feeling."

THE WATERFRONT OF NORTH BAY, Ont., on Lake Nipissing, has been staked almost solidly by an army of veteran and amateur uranium prospectors. The fever follows reports the diamond-drilling crews of one mining company have uncovered ores bearing uranium, tantalum and columbium. Tantalum and columbium are rare metals used in making highly-tempered steels. Shown are drill rigs between Rankin and Newman islands, about five miles from the North Bay shore.

Legless Veteran Described As a 'Remarkable Canadian'

OTTAWA (CP)—Walter Callow, blind and legless invalid who spends his time in a Halifax veterans' hospital planning the comfort of fellow cripples, was described in the Commons as "one of the most remarkable Canadians of our time."

The tribute came from Gordon Graydon PC-Peel, one of a dozen speakers to support a bill establishing the Callow Veterans and Invalids' Welfare League.

Samuel Balcom (L-Halifax), sponsoring the measure, said it will allow the Callow organization to further its work in providing hospitals with special invalid coaches.

The coaches, designed by the 58-year-old invalid, have special ramps for loading wheelchair patients for outings. Stretcher cases also can be taken.

Mr. Balcom, in reply to questions, said 8,600 invalids had been carried in Callow coaches in 1952. It was hoped through a national campaign to have 20 coaches in Canada and perhaps

The crowd was specially entertained by a 4-round exhibition bout between Elks Club boxers Bill (Mouse) Morrison and Andy Marshall.

MONTREAL, February 26th—Aaa-chool! This is certainly the time of year for sneezes and wheezes... so what better time to give you my favourite cure for a cold? Here it is for all of you to keep handy during these sniffling February days. Drink the juice of one lemon in a glass of water with a half teaspoon of bicarbonate of soda... added very slowly. Drink as the foaming quiets. Do this every three or four hours at the first signs of a cold and see how quickly it alkalizes your system and you feel better. Do be sure to use SUNKIST LEMONS... they're the finest, juiciest grown. It's a good idea, I've found, to keep a supply always on hand.

Do You Marvel at your neighbor's snow-white wash? Let me tell you how your wash can be even whiter than hers! You know of course that for a really clean wash you simply must rinse at least once. For the whitest wash simply put a dash of Blue in the water. Blue helps prevent unattractive yellowing of your sheets, towels and precious linens. There's no pure white without blue in it. (I can remember that from my school-days, can't you?) And when you think that Blue costs just a few cents a month; it's certainly worth it, isn't it? For Blue is as safe as can be for your finest fabrics—and it keeps them white.

Yes, for the whitest wash, use RECKITT'S BLUE.

Like Other Newspaper Reporters I suppose I have "a nose for news". But this good news concerns your nose. It's about a better kind of tissue handkerchief—FACE-ELLE! Here's a softer, more absorbent tissue that is kinder to the nose. Even when you have a heavy head-cold you'll find that Face-Elle doesn't irritate... never adds to the discomfort of frequent nose-blowing. That's because Face-Elle is a pure cellulose tissue with no harsh fibres to cause redness or soreness. Its super absorbency helps too since there's no need for vigorous blowing when gentle patting with Face-Elle does it the easy way! As for strength, Face-Elle makes Canada's only 3-ply tissues and this extra thickness is such a boon for head-cold use. Get 3-ply Face-Elle in the "pink" box... 3-ply Man-Size Face-Elle... or 3-ply tinted Face-Elle in the "En Pastels" box.
