

# McCarthy Decides Not To Call Truman Before Committee

WASHINGTON (AP)—Senator Joseph McCarthy (Rep.-Wis.) said this week the Federal Bureau of Investigation has assured him that former President Harry S. Truman did not withhold any information he received from Canada about an atomic spy plot.

In view of this, McCarthy said, there would be no occasion for the Senate investigation sub-committee he heads to call Truman for questioning.

A little more than two weeks ago, while Truman was on a vacation trip east, McCarthy said there had been "constant reports" that the ex-president had not turned over to the FBI a list of some 150 Soviet spy suspects received from Canadian authorities.

McCarthy fired off a letter to Attorney-General Herbert Brownell asking whether the justice department and the FBI ever got such a list from Truman.

He called this a first step toward deciding whether to ask the investigations sub-committee to call Truman as a witness.

In New York at the time, Truman told reporters he had no comment because "what I could tell you, you wouldn't print."

In answer to reporters' questions today, McCarthy said: "I've gotten assurances from the FBI that Truman did not withhold any information which he got from any Canadian source, including Mackenzie King, in regard to espionage."

He declined comment when asked specifically if Truman had turned over a list of names to the FBI.

## RECEIVED LIST

McCarthy in his statement two weeks ago said he understood Truman received from former Prime Minister King in 1945 a list of U.S. citizens allegedly linked to an international atomic spy ring.

At the time the senator also said that if such a list were turned over to the FBI, he would like to know why the U.S.

citizens were not prosecuted. He said nothing further about that today, however.

Information about suspects was made available to the U.S. government after 10 persons, including the British scientist Alan Nunn May, were sent to prison in the Canadian atomic spy trials.

Igor Gouzenko, a code clerk in the Soviet embassy at Ottawa, broke with communism and furnished the Canadian government with documents used in the trial.

## 165-POUND MAN TIPS TRUCK TO SAVE LIFE OF SON

ASTORIA, Ore. (AP)—A 165-pound father tipped over a pick-up truck with his bare hands to save the life of his 14-year-old son. The boy, Thomas Johnson, was pinned face down under two feet of water by the 3,000-pound truck after it skidded off a road and overturned on the bank of Young's river. The 5-foot, 8-inch father, Howard Johnson, 42, managed to tip the truck from its side back onto its wheels.

THREE TINY COPIES of the New Testament are displayed in London by the side of a threepenny piece and a thimble. The remarkable scriptures, said to be the smallest in the world, were printed in 1890.

## Nine-Year-Old Girl Held In Theft Case

BREMERTON, Wash. (AP)—A nine-year-old girl who banged on a big steel safe with a hammer in an attempt to open it, was held for juvenile authorities Monday as a confessed burglar.

Police were more than surprised—they wouldn't believe her confession at first.

Picked up after the burglary of a residence, the child told officers of two more burglaries. In one, the child said, "I used a hammer to pound on that big thing in the corner to get it open."

She failed, but took other articles.

In a roller rink, she escaped with skates, a billfold, candy and souvenir coins.

All the loot was recovered.
