SOME INTERESTED

Cliff Gilker, saying that the drydock was vital to industry in the city, said he knew that various government department are interested in some parts of the equipment, for removal and use elsewhere.

If it is sold and removed, he asked, where will ships berth for repairs? Where will local fish boats get service? What happen to insurance rates? insurance company would willing to insure a ship which The worst win- Already more than 45 people might be damaged in this area ars turned Europe have died of the cold, and lower and have to be taken all the icebox from the temperatures are on the way. way to Vancouver under soft In North Africa, many parts patch in winter seas.

> Seymour Narrows, a winding channel between Vancouver and Quadra islands 150 miles north of the city of Vancouver, has been the scene of many marine tragedies. It is split at its narrowest point by treacherous Ripple Rock, where millions of dollars has been spent in attempts to blast the rock and clear the channel.

The Prince George is the largest passenger vessel built or Canada's west coast. She constructed at Yarrows Shipyard in Victoria in 1948.

A special matinee showing the movie, The Cruel Sea, the film of which is aboard the George, scheduled to have been shown at the Capitol Theatre on Wednesday, has been postponed until Thursday. Naval personnel and the Captain Cook Sea Cadets have been invited as special guests at the showing.

On Dam Project

Funeral service will be held er of Louis Postuk of this city. who was killed along with nine others in a construction accident at a power dam project in Quebec.

The accident occurred at the Bersimis River power project, 175 miles east of Quebec City. The 10 men plunged 80 feet to the bottom of a shaft when one of six steel cables securing a working platform came loose from its anchor.

Born in Yugoslavia, Mr. Postuk came to Canada and Prince Rupert in 1925, and after staying here with his brother briefly, worked at Anyox from 1924 to 1932. In 1932 he moved to eastern Canada and followed the construction trade. He was residing at Niagara, Ontario, at the time of his death.

His brother Louis is the only survivor.

The remains will arrive tonight by train and funeral service will be held Thursday at 2:30 p.m. from St. Andrew's Anglican Cathedral with Rev. Canon Basil S. Prockter officiating. B. C. Undertakers is in charge

of arrangements.

Slasher Still Loose

MONTREAL (CP) - Police say the case of the Montreal slasher, furtive figure who cuts women's legs with a razor, has been complicated by crackpots and publicity-seekers.

Four new attacks were reported during the week-end.

HOT ON THE HEELS of the grounding of the British Comet jet airlines (one of which crashed in the Mediterranean recently) comes news of the new military transport, the Vickers 1000, that will fly faster than the Comets. The "keel" has already been laid at Weybridge, England, and will be completed by the summer of 1955. It will feature Rolls-Royce Conway by-pass jet engines, said to give more power for less fuel than conventional jets.
