Civil Defence Exercise Set For June 20

VICTORIA — An international airlift is planned for June 20, when Western provinces and Northwestern states will stage a big civil defence exercise. British Columbia civil defence headquarters said today that medical personnel may be picked up here by a unit of the United States civil defence air patrol and flown to the "aid" of a U.S. city.

Another drill will see a B.C. rescue convoy cross to Bellingham from B.C.'s Fraser Valley.

International civil defence week is being observed starting June 1 in the East, when an exercise in mutual emergency aid will be held in the Niagara area.

A TINY VIRUS, striking mysteriously in southwestern Ontario, has caused the death of hundreds of pigs and it is feared many more may die. Common in the United States, but rare in Canada, the disease continues to spread. Aaron Kuepfer, farmer near Stratford, Ont., checks over some of the 98 shoats which later were destroyed when they were found to have hog cholera. Fifteen farms in eight counties were found infected. The federal government has imposed a quarantine on a 50,000-square-mile area.

Eleven pictures now being filmed or to be filmed on locations outside the United States, plus at least seven others which will require on-the-spot filming in various sections of this continent, are on Columbia Pictures' 1953 schedule.

One of the location troupes, 80 members of the cast and crew of "From Here to Eternity," is in Honolulu for three weeks of work in the original locales of James Jones' best-selling novel. Burt Lancaster, Montgomery Clift, Deborah Kerr, Frank Sinatra and Donna Reed head the all-star cast for the picture, which Fred Zinneman is directing and Buddy Adler producing.

The next company to leave will be that of the Beekwith production, "Miss Sadie Thompson," with Rita Hayworth, Jose Ferrer, Aldo Ray and other members of the cast being directed by Curtis Bernhardt going to the island of Kauai, "garden spot of the Pacific," for 3-D Technicolor filming of the Somerset Maugham classic.

"The authentic quality which location photography will give to these pictures, especially the one produced in three-dimensional color, will answer every audience demand for new and exciting visual experiences," declared executive producer Jerry Wald. "It will take moviegoers out of their living rooms and into a new outdoor world."

The next Technicolor film scheduled for filming outside the United States will be "River of the Sun," based on James Ramsey Ullman's best-seller. It is to be made in Brazil, in the rarely explored headwaters of the Amazon River.

Canada will play host to two Columbia productions: "The Human Beast," modern version of the Emile Zola classic, to be made in co-operation with the Canadian National Railways at Edmonton, and "High Command," a story of the Canadian bush pilots.

Crime Committee Urges Creation of Port Authority

ALBANY, N.Y. (AP)—The New York state crime commission has urged creation of a state division of port administration with power to smash New York waterfront racketeering by abolishing the shake-up and licensing dock workers.

The drastic plan was submitted to Governor Thomas E. Dewey and the legislature in the four-member agency's fourth and final report on its two-year investigation of crime and political corruption.

The crime commission also recommended:

● Appointment by the governor of a commission of port administration to head the new division. The state agency would license and supervise all dock workers, stevedoring companies, dock hiring agencies, loaders and port watchmen.

● Insistence by all steamship and stevedoring companies that their officials co-operate with

Canadians Eating More Canned Salmon

VANCOUVER—Canadians are eating a lot more canned salmon today than they were according to the latest figures compiled by the British Columbia salmon canning industry.

Domestic consumption of salmon in 1952 accounted for 90 per cent of the total, as compared to 85 per cent in 1951, according to figures from the industry.

"Increased domestic consumption of canned salmon is a critical time for the industry as markets in Britain and elsewhere have almost dried up," stated J. W. Edwards, vice president of the industry.

American Can Company has perfected the modern method of canning salmon, which has helped expand British Columbia's fish-canning industry.

"This trend helped to increase per capita consumption of salmon in Canada from 12 1/2 pounds in 1947 to almost 14 pounds a year," Edwards added. "The same period, the consumption of canned salmon increased from 4 1/2 pounds to five pounds."

Menzies To Meet With Churchill

CANBERRA (Reuters)—Prime Minister Robert Menzies will have secret talks with Sir Winston Churchill in London on further British atomic weapon tests in Australia in the near future, an authoritative source here says.

The tests would be on land, probably at the Woomera range in central Australia or some adjacent area.

The prime ministers will also consider setting up an atomic research station in Australia, the source added. Expansion of guided missile research, now going on at Woomera, is also envisaged. Menzies is in London to attend the Coronation.

Former Rupert Resident Dies At Burns Lake

BURNS LAKE—Funeral services were held at the Anglican Church here for Albert J. Edlund, 71, pioneer telegraph lineman and Prince Rupert resident for many years.

He died suddenly at his home here.

Born in Borstills, Sweden, Mr. Edlund went to Minnesota at the age of 14 and to Vancouver in 1909 later coming north. He was lineman on the Yukon Telegraph line and the Skeena branch for many years and was known as a highly capable troubleshooter.

Funeral services were conducted by Rev. A. W. Atkinson followed by impressive Elks burial service, many members of the BPOE No. 246 attending in regalia. Graveside service was read by Chaplain C. E. Wright. Besides his wife Florence, Mr. Edlund is survived by three daughters, Mrs. Thelma Thody and Mrs. Iris Carlson of Burns Lake, and Mrs. Kristina De Costa of Kemano; and a son, Ernest, in Seattle.
