CENSORSHIP OF BOOKS CRITICIZED BY JURIST

MONTREAL (Supreme Court Justice R. L. Kellock Friday night criticized censorship of books for depriving each person of his own standards of selection.

Individuals will never be safe until they are able to choose by themselves, he told graduating students at Sir George Williams College.

"And the country will never be free until all its people are free to read anything, but use their freedom to read the best that has been thought and said."

Landings Up Million Area 3-A Down 1,500,000 Lbs.

Halibut landings for the first 18 days of the 1954 season from Area 2 show an increase of 1,250,000 pounds over last year for the same period. However the catch from Area 3A is down by 1,500,000 pounds this year, according to figures released by the International Fisheries Commission.

The first fishing season for Area 2 and 1-B closes at midnight tonight when the full quota of 26,500,000 pounds is expected to be taken. Last year 11,500,000 pounds of halibut were landed after June 3, which brought the total more than 2,000,00 pounds over the quota.

Seven welders were suspended earlier Friday after refusing to work material they claimed should be paid for at "dirty money" gates, about 25 cents an hour over basic rates.

Commodore Spencer, in a statement, said he ordered the original seven suspensions because the men "refused to carry out work for which they considered they were entitled to dirty work allowance."

He said naval regulations enacted by the federal treasury board April 30 "do not permit such allowance being paid for this work."
