Wren Sharpshooter Earns Trophy For Rifle Prowess

Three trophy cups donated by George Cook, local jeweller, were presented to the three top marksmen of HMCS Chatham on Wednesday night for the monthly .22 rifle competition. Presentation took place on the drill deck before the entire ship's company just before evening quarters.

Leading Seaman George Wadwell captured the RCN cup with a score of 99, while Able Seaman Sid Alexander, with a score of 88, received the RCNR men's cup.

Wren Eileen Trapp, best markswomen of the month in the Wren division, took possession of the last cup with a score of 94.

This monthly competition for the three cups has kept the new rifle range at Chatham in constant use. Six new Mark VII .22 rifles have been received from the naval armament depot at Esquimalt and, according to the staff, are a big improvement over the old type.

DINGHIES ARRIVE

Good sailing is now assured for all reserve personnel at Chatham with the arrival of the two long awaited dinghies. These little boats, 14 feet long and built of mahogany with brass fittings, are at present being given an additional coat of varnish before being put to use.

Meanwhile, plans are under way to increase the communications equipment in order that Chatham may take part in the weekly exercises carried out over a radio network comprised of naval reserve divisions across Canada.

With summer camp period approaching, the Sea Cadets are

an earnest group of boys on drill nights. Cadets and their officers are enthusiastic and together are building "Captain Cook" into a smart corps.

The summer camp is located at the entrance to Comox harbor at the old site of Naden III, and has been completely renovated for this year's training.

Mr. Longwill had been in failing health for the past couple of years. Born in Reside, Lanarkshire, Scotland, Mr. Longwill came to

Twenty-four years ago he married Miss Margaret (Peggy) Steward. They have one son, Walter D. Longwill. Deceased Ninth Street was a show place.
