Korea Fight Worthy Cause

Urges Support of Campaign in Defence of Principles for Which Christianity Stands

Description by E. T. Applewhite, MP for Skeena, of a recent visit to the fighting front in Korea as well as other places in the Orient, including Japan, proved of much interest to the Men's Club of First Presbyterian Church at a meeting Monday night. He spoke for about an hour.

Support of the campaign in Korea as well as all aid to the people of that country was commended by Mr. Applewhite as being in accordance with Christian principles.
This was no case of "turning the other cheek" when all the principles for which Christianity stood were being threatened.
The circumstances were such that justified violence and the patriotic support of Canadians and the churches should be forthcoming.

Duncan McRae, vice-president of the Presbyterian Men's Club, was in the chair in the absence of President Fred Conrad.
George Mitchell, on behalf of the club, thanked Mr. Applewhite for his discourse.
At the close of the meeting refreshments were served.

"Why Be Half Right?" Asks Our Alert Mr. Champion in One-Round Battle of Wits With Fuzzy Mr. Muzzy

In one sense, nobody ever wins an argument from Mr. Muzzy. That is not because he is ever right. It is because people realize they are wasting their time. Mr. Muzzy either cannot see the point . . . or will not admit it if he does.

The bidding:
South 1 S Pass 2 D Pass
West 1 S Pass 2 D Pass
North 1 S Pass 2 D Pass
East 1 S Pass 2 D Pass

Such a situation arose in connection with today's deal. Mr. Muzzy was on the opening against Mr. Dale's four spade contract and he laid down the ace of clubs. Surprisingly enough, he now gave some pretty good thought to his play at trick two. He noted that his side was not going to get any more club tricks. He also noted the good six-card diamond suit in dummy. Since he himself had three diamonds, that suit was bound to break favorably for declarer. No winners for the defense there. If Mr. Champion had any winners in spades, he would always get them.

That left only the heart suit. If the contract could be defeated, it would have to be in hearts. Bravely, Mr. Muzzy laid down the ace of that suit and continued with the jack.

The queen covered and Mr. Champion won with the king. But that set up Mr. Dale's 10 spot as a third-round winner and he promptly claimed the rest of the tricks.
"Well, I shifted to the right suit, anyway," said Mr. Muzzy, looking around at the kibitzers for approval.
"Why be half right?" sneered Mr. Champion. "So you shifted to the right suit. But why not lead the right card of that suit?"
Mr. Muzzy was overcome with indignation. "What good would it do to lead a low heart?" he demanded.
"None. But do you deny that you had the jack of hearts?" Mr. Champion said, nastily. "If you had led the jack at the second trick, Dale wouldn't have had a chance. If he had ducked in dummy, your jack would have held and then we could have cashed the ace and king. If he

ALUMINA PLANT

(Continued from page 1)
alumina from the bauxite at its source, rather than shipping the ore itself to an alumina plant in North America.
First production of Jamaica alumina is expected to commence in the third quarter of 1952, while the greatly enlarged plant on which construction is well under way is scheduled to go into operation in late 1953. At the B.C. smelter, which will be ready for initial operation early in 1954, the alumina will be discharged from deep-sea vessels direct to storages and pipelines 800 yards from the wharf.
The company was the first to acquire bauxite properties in Jamaica and pioneered in geological exploration for the ore throughout the island. Tests were carried out originally in 1942 and were continued through the ensuing years, both in the field and in Canadian laboratories. The company purchased 30,000 acres of land containing approximately 5,000 acres of bauxite deposits and has since conducted an extensive agricultural and reforestation scheme to raise the productivity of the remaining land. A stock of cattle suited to the Jamaican conditions is being bred and modern farming methods were applied.
