

High Commissioner in New Zealand Awarded Honorary Degree by UBC

VANCOUVER — Dr. Alfred Rive, Canadian high commissioner in New Zealand, has been awarded the honorary degree of doctor of laws by the University of British Columbia. He will receive it at the annual convocation May 20.

Dr. Rive, now serving his second term as high commissioner to New Zealand, is a graduate of UBC.

Barbara Brent's BUYS AND WHYS A WEEKLY INFORMATION SERVICE

MONTREAL, April 2nd—There's no trick to cooking when you cook with the new GURNEY Gas Range. Its designers have thought of everything for your convenience. Cooking and baking are made so much easier with the special GURNEY features...

Here's A Wonderful Offer from the makers of French's Instant Potato... a 25c booklet called "Culinary Art" with 32 illustrated pages of superb recipes—including helpful facts about weights and measures—and a Meat Roasting Guide. All this is yours for just 10c. Simply write to me—Barbara Brent, 1411 Crescent St., Montreal, P.Q.—enclosing 10c in coin or stamps. Incidentally, if you haven't yet tried FRENCH'S INSTANT POTATO, I'd suggest you do! Takes just one minute to prepare them... no washing... no peeling... no cooking... no mashing... and no waste! Ask your grocer for a package and remember to send me that dime for your cook-book!

Now I Find Housework so much easier, so much quicker, since I made this discovery: S.O.S. Scouring Pads (the "magical" scouring pads with the soap inside) do so many jobs so well. The quickest and most economical way to clean old wax off floors is with S.O.S. And S.O.S. takes spots and stains from linoleum, too. Puts floor tiling back in brand new condition. If you want to whizz through housecleaning, learn how quickly S.O.S. scours basins and bathtubs... how it restores lustre to any porcelain and enamel. You see, S.O.S. is a "clean-it-quick" combination of sturdy, interwoven fibres and grease-dissolving soap. Try it! I know you'll agree it's the most useful cleanser there is!

Solved! At last I've found the perfect answer to the "Problem of the Yellow Wash!" My white things used to look so yellow, 'til I remembered that there's no true white without blue. So of course the answer is to add Blue. You know you must rinse your wash to get the clothes really clean. Then simply put a dash of Blue in the water to get them really white. Your sheets, hubby's shirts and your precious table linen will fairly sparkle. Such a satisfying feeling! What's more, Blue is kind to fine fabrics. It won't harm them in the least. Costs just a few cents a month, too! Yes, for the whitest wash, use RECKITT'S BLUE.

The Time Has Come to take a good look at the outside of your home. What needs to be done? Can you afford to do it now? Repairs can't wait, as you know from experience. So if you're short of ready cash, and your home needs repainting or repairing, talk over a Personal Loan with your BANK OF MONTREAL manager. Then start Personal Planning so you won't be short of cash next time an essential outlay like this one comes along. Personal Planning has helped me through many "financial crises" with a minimum amount of struggle. Yes, this B of M family-financing makes good sense because it's been designed for you and me. Why not give it a try? Get your free copy of the booklet, "Personal Planning," at your nearest branch of the B of M.

Talk About De Luxe Flavour! You really enjoy it when you ask for BLUE BONNET DE LUXE MARGARINE. M-m-m... fresh, sweet flavour... its sweetness is the result of quality ingredients... and its freshness is sealed in. Each individual quarter pound of De Luxe Blue Bonnet is wrapped in pure aluminum foil. De Luxe Blue Bonnet is nutritious, too. Besides the natural nutrition of good ingredients, 16,000 units of valuable Vitamin A are added to every single pound. AND you'll find the De Luxe Blue Bonnet quarters extra convenient. Just unwrap what you need and use. No slicing, scooping or re-wrapping. For cooking, the handy chaw on the package shows where to cut for recipes.

Mrs. Clyde Scott Puts on Blue Bonnet—Says it's Best!

Mrs. Clyde Scott invites you to compare DELUXE BLUE BONNET MARGARINE with any spread at any price! You'll agree with the mother of Canada's famous Barbara Ann: DELUXE BLUE BONNET's fresh, sweet flavor wins acclaim from everyone! You'll love DELUXE BLUE BONNET's nutritional value, too. And what convenience! DELUXE BLUE BONNET's pre-cut in golden-yellow quarter pounds, each quarter pound individually wrapped in pure aluminum foil with inner parchment lining. No measuring cup needed! Enjoy DELUXE convenience and quality. Get golden-yellow DELUXE BLUE BONNET MARGARINE today.

SOVEREIGN OF THE SPANISH MAIN, Sterling Hayden, left, out-duels Paul Cavanagh in Columbia Pictures' "The Golden Hawk," which opens tomorrow at the Capitol Theatre. Rhonda Fleming stars with Hayden.

Crosby Waves Aside Rumor Of Wedding to Young Actress

PARIS (AP) — Bing Crosby waved aside today with a casual "it's all news to me" gossip of an approaching marriage to 26-year-old actress Mona Freeman. As for the gossip column prediction of a Crosby-Freeman wedding at St. Moritz, Switzerland, in December, the crooner merely said:

"We're good friends, yes. I've known Mona since she was a little girl—10 or 12 years. But I certainly don't know anything about a wedding at St. Moritz. And I doubt if she does either."

Crosby, whose wife died last winter, was more voluble about a British snooty at his golfing prowess.

The actor-singer's qualifications to play in the British amateur tournament May 25 were challenged last week by the London Daily Express columnist, Desmond Hackett, who said Crosby had turned the 1950 amateur into a cheap circus, when female Crosby fans in high heels had "run screaming all over the course."

If Crosby rated a low three handicap, said Hackett, then he, Hackett, ought to get top billing at the Palladium, London's top variety theatre. Today Crosby produced his membership card in the Lakeside golf club in Hollywood, pointing out his rating as a three-handicap man.

"You can see for yourself," said he. Then he added:

"Of course I can see that there might be some complaint about the confusion on the course, but no one has objected before."

Science Finds Use for Mud

CALGARY — The woman who does the laundry and mops up floors won't agree, but science has found a use for mud.

Add a few chemicals to mud, doctor it up a bit, and it turns into an important factor in the drilling of oil wells.

As used in the oil-drilling business, mud has many functions. It helps overcome gas, oil and water flows and keeps the drill hole free of cuttings. It prevents walls from caving in and serves as a protection for producing formations during the drilling process beside gathering a little information.

The technology of drilling mud has developed into a science since its full use was first suspected back in 1901. There are mud engineers to make it perform. Most are trained by private companies since few universities offer courses in mud engineering.

The mud engineer can tell by samples and delicate instruments just what is going on at the bottom of the bore hole. Some have set up small laboratories in their cars and have been known to stay on the site for days working on a well.

Tanks to Sweden

STOCKHOLM (CP) — Six British Centurion tanks will be delivered to the Swedish Army in April, part of an order of 30 units. Seven officers and NCO's of the Swedish Army's armored division are going to Britain to familiarize themselves with the tank, before shipments arrive here.
