Hold-up May Be Handy

In recent columns, various phases of the hold-up ducts have never been offered in have been discussed—all at no-trump play. The hold- the u.s. market. We trade comup is also extremely useful at suit contracts, although here the need for the play is usually more difficult to see. It is also more dangerous because, when you ducers to discuss with prospectdo concede the first lead of a suit, there is the chance ive buyers or their agents." that the partner of the leader will ruff the continuation.

The success or failure of the contract in today's deal depended upon Mr. Master's play at the very first trick. The king of diamonds was opened and he

Here was his reasoning: First, he admitted ruefully that he west would need plenty of luck to bring home 10 tricks. Of course if Mrs. Keen had the king of clubs, it would be easy. rou. club tricks, five hearts and a diamond would make the game.

But what if the king of clubs were in Mr. Abel's hand? In that case the defenders appor- Butterworth, .04, Winnipeg's ently would win a club, two oldest citizen. diamonds and the ace of spades -unless it could be arranged sports editor of the Calgary that when Mr. Abel got in with the king of clubs, he would have no diamond to lead and no way to reach Mrs. Keen's hand

This would be possible if Mr. Abel had the ace of spades and net more than two diamonds Admittedly, Mr. Abel might have held only the one mond, in which case he could ruff the second lead of the

this possibility, there was the fact that Mr. Abel might not realize the necessity of ruffing, since his partner might be leading from A K Q of diamonds instead of K Q J.

In any case, Mr. Masters feit that the odds favored the holdup at trick one. He took the diamond continuation with the ace, cashed two rounds of trumps, then led the nine of clubs and let it ride.

Mr. Abel won with the king and, since he had no more diamonds, the best he could do was to lead the ace and another spade. Mr. Masters won the second spade and parked his last diamond on dummy's long club.

#### Favor Sales Invasion By The Canadian Press Canada's trade experts favor

an "invasion" of the United States—a trade invasion by a growing army of salesmen and Canadian manufacturers.

The feeling among trade commissioners is that some Canadian producers and exporters are trying to gain U.S. markets by armchair tactics, rather than through personal and persistent scouting of the trade front.

The U.S. is Canada's biggest market. But the puzzler is that though Canada has a population of only 15,000,000, she continually buys far more than she sells to her southern neighbor with a population of 160,000,000.

This Canadian deficit in U.S. trade is growing. It reached about \$600,000.000 in 1952 and likely will rise to more than \$700,000,000 this year.

Canada-U.S. trade has been increasing, but the emphasis is more on the flow of U.S. goods into Canada. Exports to the U.S. are estimated to rise this year to about \$2.500.000.000. up from \$2,300.000,000 in 1952.

But imports from the U.S. are

artimated to rice more than \$3,200,000,000 from \$2,900,000,000 B. C. Butler. Canada's trade commissioner at Detroit, says the mswers are not easy to find, missioners can suggest general categories of goods that might sell, but we rarely have offers

If Canada is to make a successful bid for a larger share of the U.S. market, more Canadian firms must get into the effort Mr. Butler says.
