ON LAND, IN THE AIR, on the sea-the Navy's XF2Y-1 Sea Dart experimental jet fighter, the world's first delta-wing seaplane, is a thing of beauty, speed and power. The public was recently permitted its first view of the revolutionary craft when it soared from San Diego Bay in a demonstration flight. At bottom, the Sea Dart roars over the choppy waters of San Diego Bay on its take-off. At centre, the water-based plane zooms through the sky at a high speed. At top, the needle-nosed combat seaplane moves onto the beach after the test run.
