

Marcel Girardet Elected Conrad PTA President

Marcel Girardet was elected president of the Conrad PTA at a meeting held in the hall of the Conrad PTA on Tuesday evening. The meeting was held in the hall of the Conrad PTA on Tuesday evening. The meeting was held in the hall of the Conrad PTA on Tuesday evening.

MUSEUM— briefs

—By JOCELYN BOLTON—

The last of the tour boats called Friday and a great many guests came through the museum, including a bus load of 19 with Len Griffith in charge. One of our guests remarked that she thought our museum "very good, much better than Vancouver."

During the week Mr. and Mrs. Ted Bobler of Wells, B.C. came in to renew old acquaintances, being old friends of ours from the Cariboo. They had never been to Prince Rupert before and were very impressed with our city. They said they enjoyed the drive here and were flying to Alaska for a visit and will return to Wells via Highway 16.

Mrs. Frank Dibb called to see us and very kindly donated some interesting periodicals for display at the Museum—plus a piece of the first airplane which landed in Prince Rupert in 1921.

The Forestry Department has also donated a very fine exhibit of Cellulose—and we now have this display upstairs showing the different processes of Columbia Cellulose, which we feel sure many of our local people will enjoy seeing.

Guests this last week represented many places—London, England, Ontario, Ottawa, Texas and Indiana. California is very prominent as usual. Manitoba and Alberta are both listed as are Washington, Wyoming, New York, South Dakota and many other states in the Union.

LEGAL TREASURES

HALIFAX—Old bookcases, some of which have been gathering dust for 100 years or more, are being replaced by modern adjustable steel shelving at the Nova Scotia Barristers' Society library here. The library was founded in 1850 but some of its volumes date back to 1753.

IN KNIT WOOL YARN of delicate rose pink, this cloche-hat features a high-tucked crown and deep fringed tassel. Just the thing for winter wear, it is easy to make and wear. (CP Photo)

Home Nursing Course May Be Conducted Here

Benefits of a home nursing and child welfare course will be available to Prince Rupert women in the near future, if plans made at a meeting in the Civic Centre Friday night materialize.

Speaking to the meeting was Miss Verna White, provincial nursing officer of St. John Ambulance association of British Columbia.

Such classes will not only benefit women in the home but will also be valuable to the local civil defence organization in case of disaster, Miss White said.

Held under the auspices of the St. John Ambulance association the meeting had Mrs. James Hadden Jr. representing the local Registered Nurses Association.

Ragnar Eryolfson, president of the local St. John Ambulance association chaired the meeting. It is hoped that these classes, sponsored by the Prince Rupert Civil Defence Council will start in October, with 12 lessons in all.

Miss White, meeting with the Registered Nurses Association last night in the Nurses' Residence gained the approval of the Association who pledged their support in giving instruction.

By MRS. A. H. NEAVE
FRANCOIS LAKE—September 10, 1955—David Gataere, two of the Renaud children and Richard Neave were gathering Saskatchewan back of the ranch house last week when they noticed something black in the bushes close by. When the bear which had been watching them stood up on his hind legs the children ran for home in a hurry.

Mr. and Mrs. Bert Ward are visiting at the landing on their way home to Prince Rupert, after a trip through the Okanagan. They also visited Mr. Ward's old ranch at Fort Steel in the Kootenay country, and during their travels saw a grizzly bear, moose, coyotes, deer and a cougar. They were impressed by the large amount of construction work being carried out on the roads, which on the whole were in good condition.

Word has been received by wire that Grace and Chuck Miller have a baby daughter, Leslie Machele.

J. Woode of Burns Lake visited Mr. and Mrs. J. Keefe on Sunday, coming over with the Bill Mummery family.

Jackie Thompson who lives at Tatalrose and is only 11 years old rode his pony all the way to Burns Lake to the Fair. It is a distance of 37 miles. He stayed the first night, Friday, in Southbank, coming over on the morning ferry and from there rode to Burns Lake (15 miles) so as to be in time for the procession and pyrotechnics.

Except for two chilly showery days we have had, and are still having, hot pleasant days. The nights are getting quite cool, though, and frost has been picking out spots to freeze the garden.

Ever Since Eve

TO DISPLAY POTTED PLANTS safely on a narrow window sill, hold them in place with a curtain rod. Mount rod so it is above center of pots, and they won't tip or fall if jarred. Set pots on shallow coasters and you'll protect the sill from moisture.

LATEST TIDBIT FROM the John Innes research center in England is the suggestion to spray tomatoes with milk. They hint that spraying them with milk may overcome a virus disease of tomato plants—tomato mosaic. Just now and why, nobody knows. Perhaps milk, with an alkaline reaction, robs the mosaic of some essential acid food.

STOP RUST BEFORE IT STARTS on screws and bolts by dipping them into aluminum paint. When dry, metal will be encased in nonrusting aluminum sheath. This is quicker than painting exposed heads one at a time.

KEEP COLD DRINKS all day by insulating them with vermiculite when thermos jug isn't handy. Place containers holding liquid in box and pour vermiculite around them. Then close flaps of box for additional insulation.

BOTTOM STEP PAINTED WHITE helps you to get up and down dark basement stairs safely—especially when you're carrying an object that partially blocks your vision.

AFTER CUTTING FRESH FLOWERS, plunge them into warm water until they freshen up. Then store them in a cool place until you are ready to use them.

THE OLD ADVICE TO CUT flowers in the early morning has been long disproved. New research proves why. Flowers cut in the afternoon on a bright day contain more nutrients, which are necessary to the long life of a cut stem.

KEEP THE STITCHING around men's shoe soles clean by giving the cord a coat of colorless fingernail polish. Shell of polish will keep grime from penetrating the cord's fibres and it will protect cord against scuffing.

GELATINE DESSERTS are colorful and attractive and use up bits of leftover fruit or fresh fruit and juice. They're also easy to prepare and taste wonderful.

Queen Juliana
To Pay Visit
To West Indies

THE HAGUE (Reuters).—When Queen Juliana steps ashore at Willemstad on the island of Curacao in the Dutch West Indies Oct. 18 it will be the first time that a ruling Dutch monarch has visited an overseas part of The Netherlands realm.

The 46-year-old queen and her consort, Prince Bernhard, will be starting a nine-day state visit to The Netherlands Antilles, which comprise two groups of islands in the tropical Caribbean.

After touring the Antilles, the royal couple will fly to Paramaribo, capital of Surinam (Dutch Guiana), on the South American mainland.

R. H. Robertson, general superintendent for B.C. District operating department of the Canadian National Railways arrived in the city by train this morning on a routine visit.

LOBA Group Plans Stall For Bazaar

Plans to convene a stall at the Ladies Orange Benevolent Association bazaar in November were made when the Past Mistress association of the LOBA held its monthly meeting Thursday night at the home of Mrs. Barbara Guyan, 121 Ninth Avenue East.

The meeting was chaired by Mrs. Victor Morrison, vice-president.

Mrs. John Johansen won the monthly prize.

The next association meeting will be held at the home of Mrs. Johansen, 326 Fourth Avenue East.

"Want some help
with your homework, Dad?"

It's a good thing young Ted is only joking.

If his Dad took him up on that offer, Ted would soon find himself floundering in a sea of facts about family income management, succession duties, taxes, wills, trusts, business insurance and other related subjects!

You see, Ted's father is a typical life underwriter—a man who has not only been trained for his job, but keeps up-to-date by constant study. For the uses of life insurance are more extensive today than they used to be. And the men who represent companies in this business now advise you with increased skill.

Doing this calls for more than study. It takes real understanding of people's needs. And since each family's needs are different, the company representative offers valuable guidance in making plans to fit these needs—individually.

All in all, the life insurance man you deal with today is a very good man to know. And his progress is another reflection of the many ways in which the life insurance business has developed with the times to meet your changing needs!

The Standard Man cut "down time"
on my heavy-duty engines

You can reduce "down time," save on overhaul expense and operating costs by lubricating your diesel and heavy-duty gasoline engines with RPM DELO Heavy Duty Lubricating Oil. Specially compounded, it resists corrosion, prevents the formation of harmful deposits, keeps contaminants dispersed and stops foaming of oil in the crankcase.

Engines run smooth, develop more power when you use RPM DELO Heavy Duty Lubricating Oil to keep engines clean and cut wear. And they stay on the job, need less overhauling. So order RPM DELO Heavy Duty today.

For information on any Standard Oil product, call
