"DO-GOODERS" NOT GOOD FOR FAWNS — This little one-week-old spotted fawn is being hand-fed by Mrs. Kastner, wife of State Warden Curt Kastner, in Marin County, California. The baby deer is the eighth one that "do-gooders" have picked up in two weeks and turned over to Warden Kastner. The warden says that he just can't seem to get it over to the public that the fawns they see in the woods or at the sides of roads are not as helpless as they appear.

## Two-Week Steel Strike All Canada Can Take

By FORBES RHODE  
Canadian Press Business Editor

Canada can take a short United States steel strike without major strain, but a long one will cause distress.

This seems to be the cross-country consensus—gathered by Canadian Press Bureau—but so far there have been few if any indications of early shutdowns.

A relatively painless strike would be one in the range of two weeks. After that it would start to pinch, a month would hurt for sure, and much longer might mean—in the words of one observer—"an approach to catastrophe."

Canada gets about a fifth of her steel supplies from the United States and even if the tie-up ended today it would cause some pain.

### ALREADY SCARCE

Even those most optimistic about the immediate future say a lack of a few vital items can put a bad crimp in production.

The strike comes in the middle of an already world-wide steel scarcity and Canadian plants are already working above rated capacity and don't make many of the items imported.

Major items imported include wide-range structural steel beams, big pipe, and plates—including plates for automobile bodies.

There is little definite inform-

## Grassy Plains Man Found Shot in Head

SPOTTED TO THE DAILY NEWS  
FRANCOIS LAKE—A 34-year-old Grassy Plains man, victim of a shooting incident that is still being investigated by the police, was taken by Pacific police, from Western Airlines plane from Burns Lake to Vancouver Saturday, a .22 bullet still in his head, now in Vancouver General Hospital is Cornelius Schmidt.

He was loaded on to the plane, still unconscious, when the Burns Lake Hospital found that it did not have the facilities to remove the bullet, after he had been rushed there by ferry and ambulance from his home in Grassy Plains.

Mrs. Schmidt found her husband lying behind the burn and ran for help to a nearby garage. They have two small children.

## Inquest Reset For Tomorrow

An inquest held yesterday afternoon at Ferguson Funeral Home into the death of Donald Clapstone, 45, Dominion Day car accident victim, was adjourned until 3 p.m. Thursday at the City Hall at the request of Cpl. W. G. Lambert, RCMP officer in charge of inquiries.

Jurors, seated by coroner George E. Davies, were sworn in and viewed the body.

Foreman of the jury is Emile Meloche. Other members are C. G. Hahn, D. B. Christian, G. D. Ross, W. Dunn, E. J. Cloutier and Cyril La Courte.

## Living Costs Up in May

OTTAWA (CP) — Living costs made their biggest monthly rise in five years during May boosting the consumer price index by 1.2 points to 117.8 from 116.6.

The sudden sharp rise was almost entirely due to a jump in food prices, although other segments of the index also increased slightly, the bureau of statistics reported today.

The yardstick, based on 1949 prices equalling 100, now has reached the second highest level in history, just two-fifths of a point below the record 113.2 reached in December, 1951.

### 60-DAY SUPPLY

Trans-Canada Pipe Lines Ltd. now embarked on its 574-mile natural-gas pipeline from Alberta to Winnipeg, says it has

on hand or within sight about 115 miles of 313-inch pipe—the size to be used on the Prairies.

It expects to have two crews laying pipe within a fortnight at the rate of two miles a day.

The two crews would thus use up the present supply in about 60 days. A prolonged strike is expected to affect the company's August construction plans.

Whatever the strike's length, steel will soon cost more—already one United States company still producing has raised its price \$1 a ton and any settlement will be at higher wage levels.

### EFFECTS IN WINTER

Effects will extend at least into next winter. Iron-ore shipments from American ports, already below normal because of a succession of navigation difficulties through the Great Lakes waterway, now are stopped for the strike's duration and ore piles may be low six or seven months from now.

Not much relief is expected from Canadian ore because of the complicated nature of steel making.

First direct strike results in Canada were reported from Hamilton, Marmora and Windsor in Ontario.

At Hamilton several score employees of Union Drawn Steel Company, a subsidiary of Republic Steel Corporation, lost their jobs in sympathy with workers in the American parent plant.

At Marmora 205 workers at the Marmora Mining Company, a subsidiary of Bethlehem Steel Corporation, also went on sympathy strike.

At Windsor it is predicted that navigation on the Detroit River may be cut by more than half because of reduced iron-ore shipments.

### SOVIET BEST WISHES

LONDON (UPI)—The Soviet Union today sent good wishes to President Eisenhower and the American people who today celebrate Independence Day.

French casualties were not announced.

The official account said rebels near Constantine had captured two farmers and their wives. Near Meden, south of Algiers, the French said, a six-year-old boy was wounded in a rebel ambush.

## Tax Cuts Urged Now Not in '57

### Fleming Assails Harris Budget

OTTAWA (CP) — A Progressive Conservative spokesman says the government's fat budget surplus calls for tax cuts now instead of next year.

Donald Fleming said in the Commons Tuesday the government has no right to continue levying high income taxes when it will end the fiscal year next March 31 with a huge surplus.

The member for Toronto-Eglington said the basic tax exemptions on personal income—\$1,000 for single persons and \$2,000 for married taxpayers—should be increased. He also called for an increase in the \$20,000 income level at which corporation income tax changes from a 20-per cent rate to 47 per cent.

He spoke during debate on the government's bill to enact a series of minor changes in the Income Tax Act, announced in the March 20 budget of Finance Minister Harris.

### LOW INCOMES, NO TAXES

"The budget made no reductions in tax rates and forecast a \$113,000 surplus in the current fiscal year. The 1955-56 year ended with a \$51,700 deficit.

CCF spokesman A. M. Nicholson said he does not share Mr. Fleming's concern about high taxes. The main concern should be for the many Canadians with incomes too low to pay any taxes whatever.

In a country as prosperous as Canada, the government should see that all Canadians get a fair share of the country's wealth.

Yet 80 farmers out of 100 did not receive incomes high enough to pay taxes.

The government's tax bill was finally given second reading—approval in principle.

## Experts Plan To Scale Peak For Wreckage

GRAND CANYON, Ariz. (UPI)—Expert mountain climbers today planned to scale a precipitous butte to reach the main wreckage of United Air Lines DC-7, one of two airliners which hurtled into the Grand Canyon in a disaster that took 128 lives.

The broadcast said there would be no appeals from decisions of the tribunal.

It is composed of government and Communist party officials, headed by Edward Gereck, a secretary of the party's central committee.

The broadcast described the commission's task as an "energetic and comprehensive" inquiry into direct causes of the bloody three-day insurrection which is said to have left hundreds of dead.

It said the commission would not have to refer to the regular courts.

Reports reaching West Berlin said "drumhead court" trials of Poznan's rebels already had started. A German businessman returning from Poland said Poznan was full of rumors that some revolt leaders already had been executed.

Western sources have reported hundreds of Poznan workers arrested for participating in the uprising.

French Report 39 Rebels Killed

ALGERIA (UPI)—French authorities today reported 30 nationalists rebels killed in two roundups in widely separated areas of Algeria.

Seventeen were shot down at Gnaoua, a town in the Constantine area in the northeast, the French said. At Las Oueds in the north central area, 22 rebels were killed.

French casualties were not announced.

The official account said rebels near Constantine had captured two farmers and their wives. Near Meden, south of Algiers, the French said, a six-year-old boy was wounded in a rebel ambush.
