PATTERN M243

design by ALAN PIIILLIPS

Here's the more shapely than ever long-torso—the keynote of

the Fall showing for Richard Cole by that clever young Ameri-

can designer, Alan Philips! The style of Pattern M243 is so

new, so figure flattering, emphasizing the smaller waistline,

the sleek midriff, the gentle fullness about the bosom, the

rounded hipline! So striking—the gracefully flaring skirt

mounted on the tunic-length bodice! Each line designed with

the typical Alan Phillips flair for fitted but comfortable fa-

shions! It's so easy to sew—and smartly simple! The original is

a fruity-red, wool jersey lined with a taffeta petticoat-effect.
