## Singer Nat (King) Cole Attacked at Concert

BIRMINGHAM, Ala. (AP)—Nat (King) Cole, Negro singer and pianist, was attacked on stage Tuesday night by a group of white men who climbed across the floodlights at Birmingham's Municipal Auditorium.

An audience of nearly 4,000 was knocked to the floor, together with a microphone into which he was singing.

Police, who had been warned to watch for any indication of trouble, swarmed from the wings to grab three men on stage. Three others were taken into custody later. Four of the six have been charged with inciting a riot.

Outside, the auditorium officers found a car containing two .22 rifles, a blackjack and pair of brass knuckles.

Charged with inciting a riot were Willie Vinson, 23; E. L. Vinson, 25; and Kenneth Adams, 35, all of nearby Anniston, Ala.; and Jesse Matby, 33, Birmingham.

WHITE AUDIENCE

Held for further questioning were Orliss Clevenger, 13, and Mike Fox, 37, both of Anniston.

The attack came during the first of two concerts scheduled under Birmingham's rigid segregation laws. The first performance was for white patrons only. The second was given before a Negro audience.

The North Alabama White Citizens Council, one of several such groups, has been trying to stop the playing of "rock and roll" music in juke boxes. Asa Carter, executive secretary of the group, who has made numerous speeches attacking "rock and roll" as degrading, turned up at police headquarters with several other men "to get the details" of Tuesday night's attack on Cole. Cole refused to talk with him.

The third was discovered Sunday afternoon when a company employee returned to the store office to finish some work.

RCMP clamped rigid surveillance on the only three means of exit from the community: by rail to Terrace; by airplane or by boat.

## U.S. Fishboat Here for Repairs After Grounding

The Seattle-based fishing vessel *Lure*, which went around Haida Gwaii with three men aboard in Gravely channel was brought into Prince Rupert yesterday afternoon.

The *Lure* was pulled free from a rocky ledge near Keri Point yesterday afternoon by the Armour Salvage Ltd., derrick No. 1, after all water had been pumped out and temporary patches made.

During the long back were Agent S. D. Cooper, P. H. Phillips and the San Juan skipper, Captain M. J. Giesler and Payne, joint owners, respectively.

The last bid received, with a cargo laid over side and the amount of fuel was scheduled to be 10,000 litres. The amount of damage today to the *Lure* was reported by Capt. Cooper to be \$10,000.

An attempt will be made to pump out and refloat a 45-foot ship-packer, the *Zerlin* that ran aground on Texada Island, about 70 miles north of here Tuesday.

## City Awards Gravel Contract

The bid of Armour Salvage Ltd. of \$37,445 for the city's 1960 gravel supplies was accepted at a special meeting of the city council last week.

Only one other tender was made, that of Kuden Gravel Ltd. for \$37,533.

Successful tender and amounts were 5,300 yards per ton gravel at \$2.30; 3,300 yards 1½ inch minus at \$2.35; 3,000 yards mulch gravel at \$3.40; 5,000 yards pea gravel at \$1.00 bid by Armour Salvage, plus 5 per cent taxes.

Raven Gravel Ltd. tender for the same respective amounts were \$3.25, \$1.15, \$4.75 with no tender submitted for pea gravel.

## B.C. Program For Vaccine Not Delayed

VANCOUVER (CP)—B.C.'s polio vaccination program—geared to immunize more than 200,000 children—will start this week despite reports of delays in vaccine production, Dr. George F. Elliot, assistant provincial health officer, said Tuesday.

"We will start as we planned as long as Connaught Laboratories in Toronto continued to meet their delivery commitments to us," he said.

All but 400 cubic centimetres of the first B.C. shipment of 30,000 which arrived here last week now have been shipped to rural provincial health units.

A total of 216,000 B.C. school children were to receive the vaccine this year—40,000 will get single booster shots and the rest the full series of three vaccinations. The group of 40,000 was the test group in 1955.

Scheduled to receive "shots" are school children from Grade 1 to 9 and next September's beginners.

In Prince Rupert, Dr. W. Bruce Laing, medical health officer of Skeena Health unit said that the unit's quota of vaccine had not arrived yet but was believed on the way. He said that the local vaccination program would probably get under way toward the end of the month.

## 600 TO LEAVE JAPAN

TOKYO (Reuters)—A total of 11,000 American troops will be pulled out of Japan before the end of the year, a United States Far East command spokesman said today. He said one, an airborne unit of about 4,000 men, will leave Japan in June or July to join an "atomic division" which will be formed in the U.S.

Mr. Gustafson said the line, when dug up, had been found to need 200 feet of replacement pipe. The works superintendent

# Kitimat Output Up 30,000 Tons As No. 3 Potline In Operation

## Israel-Arab Tension Eased as Talks Start

CAIRO (AP)—Dag Hammarskjold talked with Premier Gamal Abdel Nasser of Egypt for 75 minutes today in his first move to restore peace between Israel and its Arab neighbors.

As the United Nations secretary-general began his talks with the strong man of the Arab states, a Jerusalem dispatch reported an easing of tensions in the Palestine area.

The dispatch reported only two minor attacks Tuesday night by roving Arab suicide squads which had struck in a series of raids and sabotage missions on the three previous nights. No casualties were reported.

Hammarskjold declined to comment as he emerged from his meeting with Nasser.

As a preliminary, Hammarskjold talked with the Egyptian foreign minister, Mahmoud Fawzi, Tuesday night, shortly after his arrival in the Egyptian capital.

The secretary-general was accompanied by Maj.-Gen. E. L. M. Burns, Canadian chief of the UN truce commission. They plan to

stay on later to Tel Aviv and the capitals of Jordan, Syria, and Lebanon for more conferences.

DISREGARD PLEA

Burns' plea last week for a cease-fire along the flaming Israeli borders failed to halt the outbreaks.

Israel has charged that Arab suicide squads, trained in sabotage by Egyptian army officers, have struck deep within southern Israel for the last few nights.

The Israelis said the roving commandos had killed six and wounded 24 Israelis up to Tuesday night. Israel's patrols pressing a mop-up of the roving bands said they had killed 13 and captured six.

Egypt in turn charged that an Israeli plane flew over the Egyptian-held Gaza strip Tuesday, and an Israeli army patrol had raided deep inside Gaza.

Premier W. A. C. Bennett

will visit Prince Rupert April 27, R. B. Worley, executive secretary to the premier advised.

"We plan to add another 60,000 tons in 1958 and 60,000 tons in 1959," said works manager A. C. Turney. "That will bring us more than half way to the final target of 550,000 tons."

The Kitimat-Kemano development will eventually represent a \$550,000,000 investment.

At Kemano, at the southeast end of a 50-mile transmission line, a fourth generator went on last month and a similar 150,000 horsepower unit is scheduled to enter service later this year.

Three more generators are to be installed in stages during the next four years to raise the Kemano powerhouse up to 1,200,000 horsepower by 1960—half the power potential of the development.

"I wonder if the people understand how much we have accomplished here in a relatively short time," Mr. Turney said in an address.

"The Kitimat project got underway early in 1951 and in the five years just ending, capital expenditures . . . total \$329,000,000, nearly \$1,500,000 a week throughout the five-year period."

E. L. Dale, U.S. Customs representative here said that the line was extremely old and was only 1½ and 1-inch.

In addition, to lower the line had required drilling and blasting, Mr. Gustafson said.

Supplying the residents during the period of repairs, had necessitated using an old 1-inch feed-

ing line and a small radio.

Break-in was discovered by CN watchman E. W. Harris and reported to police at 12:15 a.m. today by Inspector S. F. Bush of the rail company's investigation branch.

However, he said that there was no contamination, but only "good rusty water."

The works superintendent said that neither the charge that it had been necessary for Dr. Laing to get in touch with the works department before action was taken or that nothing was done for 10 days, were true.

"Dr. Laing has not spoken to me on this," Mr. Gustafson said.

He told council that the entire job of repairing the line had been done as a maintenance project and that to put in an entire line would have been "a major and costly project."

Mr. Gustafson said the line, when dug up, had been found to need 200 feet of replacement pipe.

Commentator To Be Busy During Visit

A full schedule of activities has been arranged for by city women's organizations for Kate Aitken, well-known Canadian radio commentator, who arrives in Prince Rupert early Friday afternoon by plane from Vancouver for a one-day visit.

Mrs. G. M. Turner, president of the Prince Rupert Credit Women's Breakfast club, said today that Mrs. Aitken had accepted an invitation to attend the CWBC's regular Saturday morning meeting in the Bamboo room of the Broadway cafe.

Following her arrival Friday afternoon, Mrs. Aitken will be hostess for a reception for presidents of city women's organizations and civic leaders at the Club 27. At 6:30 she will be guest of the Prince Rupert General Hospital Women's Auxiliary executive at a dinner and at 8 p.m. will speak to a public meeting in the Legion auditorium also under the auspices of the hospital WA.

THREE KILLED

MONTREAL (CP)—Three RCMP men were fatally injured in the crash of a single-engined Otter aircraft near Goose Bay, Labrador late Tuesday. Air Transport Command reported here today.

## Annual Production Now 120,000 Tons

KITIMAT, B.C. (CP)—A silver stream of aluminum, hot and smoking, poured from potline III here today as the Aluminum Company of Canada increased its production at this north coastal smelter by 30,000 tons, to 120,000 a year.

Business editors from British Columbia newspapers were given a preview Tuesday as potline II went into production pouring out top-grade aluminum—99.5 per cent pure.

A potline is a group of three buildings where molten aluminum is poured from crucibles and cast into ingots. Fourth and fifth lines are scheduled for operation by the end of 1958, to send total capacity to 180,000 tons.

"We plan to add another 60,000 tons in 1958 and 60,000 tons in 1959," said works manager A. C. Turney. "That will bring us more than half way to the final target of 550,000 tons."

The 24-year-old motorship *Sezvaples*, skippered by Capt. Ivan Dotzenko, is expected to sail within the week. The 38-men crew will be allowed unrestricted shore leave during their stay here.

Capt. Dotzenko said Russians are keenly interested in Canada, especially since two Canadian cabinet ministers had visited their country.

## Forest Ranger Arrives Here

Forest ranger Robert L. Brooks has arrived in the city from Houston to take up a similar post with the B.C. Forestry branch here. He succeeds W. F. Brooks.

A member of the forestry service for 11 years, Mr. Brooks was stationed at Houston for two years. He is married and has three children.

## NAVIGATION COURSE SLATED FOR CIVIC CENTRE APRIL 16

A four-week navigation course, under the supervision of Harbormaster W. H. Koughan will be held at the Civic Centre starting April 16, it was announced this morning.

Course is designed for amateur boatmen and women and will be held on Mondays.

Plans will be shown on boat construction and charts while instruction will be given on rules of the road, the Canadian system of voyage, fire fighting and life saving equipment to be carried aboard small vessels, regulations in regard to licensing and registration of vessels, Mr. Koughan said this morning.

Navigation problems will also be discussed.

Robert L. Brooks

skippered by R. Threlfall and the Sterling, skippered by K. Olson.

Both men are charged with failing to clear with the Customs Department either entering or leaving Prince Rupert.

The pair has made a voluntary assessment as a penalty and the case has now been referred to Ottawa where top customs officials will review the case, both so far as prosecution and defense is concerned.

The two Americans may appeal the assessment and depending on the final decision may be fined none, part or all of their assessment.

NICOSIA (Reuters)—Cypriot guerrillas ambushed a British truck convoy and killed one British soldier in a 20-minute machine-gun battle early this morning.

Bursts of automatic fire were reported to have hit the two trucks of the convoy from several directions at Kolopala village, 30 miles east of Larnaca.

## U.S. Trollers Apprehended For Customs

Two United States trollers were brought back to Prince Rupert yesterday afternoon after being apprehended at Tugwell Island by RCMP aboard the ML-15 at the request of the Canadian Customs department.

Brought back here were the Seattle-registered boats *Princess*, skippered by R. Threlfall and the *Sterling*, skippered by K. Olson.

Both men are charged with failing to clear with the Customs Department either entering or leaving Prince Rupert.

The pair has made a voluntary assessment as a penalty and the case has now been referred to Ottawa where top customs officials will review the case, both so far as prosecution and defense is concerned.

The two Americans may appeal the assessment and depending on the final decision may be fined none, part or all of their assessment.
