

Plumbing Inspector Not Necessary

Prince Rupert has no need to hire a plumbing inspector as it was decided at last night's council meeting such inspections are carried out by F. N. Good, engineer, the council learned last night.

interested in promoting Prince Rupert through the publication.

Surplus materials left from the waterworks by-law will be sold to the waterworks department and the money credited to the by-law fund. This was decided after R. W. Long, city clerk-comptroller, informed council that the \$100,000 raised by the by-law had all been expended and work had ceased. Materials valued at \$9,000 were on hand for completion of jobs still outstanding. Two main jobs mentioned in by-law and not completed are at Rushbrook Heights and Oldfield dam. To complete the Rushbrook Heights project would require \$5,000, while the amount specified for Mount Oldfield was \$9,500. Council had planned to transfer money earmarked for Mount Oldfield to offset part of cost of replacing main to Section Two across Morse Creek bridge, but had been advised against it.

A special meeting of the council has been called for tomorrow at 5 p.m. to consider tenders for a half-ton express truck for the city engineering department.

A boat and outboard motor will be purchased from the water reserve account for Shwayathans Lake. Tender of McLean's shipyard of \$821.40 for boat and motor was accepted. Move was recommended by the 1954 council.

Request by the Prince Rupert Ship by Rail Association calling for the council to adopt their brief for a ton-mile tax on trucking concerns was turned down on the grounds that the matter was not within the provision of the city council.

The telephone cable serving Fifth and Sixth Avenues will be replaced with 100-pair cable at a cost of approximately \$1,500. Utilities committee chairman Ald. Phil Lyons explained that the 50-pair cable serving the area now was all used up.

Eric Janes, telephone superintendent was delegated to attend the Independent Telephone Association meeting in Seattle June 17 and 18. Tenders will be called for a half-ton express and half-ton panel truck for the telephone department.

The Prince Rupert Gyro Club was granted permission to hold a tag day September 10 and to sell apples October 22.

The Regional planning division of the municipal affairs department advised the city that an official of that division will visit the city in July.

ODE Urged To Pioneer Human Relations Field

By PAULINE KENNEDY
Canadian Press Staff Writer

WINNIPEG (CP) — In a speech to the Imperial Order Daughters of the Empire Tuesday night, Provincial Treasurer R. D. Turner of Manitoba said the order should pioneer in the field of human relations just as settlers' wives pioneered in the west of the past. "We are making excellent progress in the material sense in Canada," he said during a government dinner for delegates, "but can we do as well in the realm of human relations?"

"I can think of no more valuable service than the ODE's interest in education," he said, "because the country's future lies in youth's perpetuation of the qualities of self-reliance, industry and initiative shown by our forefathers."

MUST KEEP STANDARDS

Mr. Turner spoke of the women who helped settle Manitoba. "We are indebted to them for breaking the trail," he said, "and we face a stern challenge to measure up to their standards of mortality, thrift and industry."

Reporting on scholarships for overseas study, Mrs. A. R. Jewitt

of Lennoxville, Que., said there were more entries and higher standards this year. Nine scholarships were awarded during 1954-55.

Mrs. C. Scott, the Commonwealth and Empire convenor from Peterborough, Ont., said her committee favored continued Canadian support of the Colombo plan.

In a resolution delegates sug-

gested Canadian literature should be placed in foreign countries to further knowledge of the Canadian way of life.
