**DOG DAZE, SHOE-NUP** — The pitter-patter of little feet around the Harry Howe residence in Richfield, Minn., can be attributed to these six offspring of the family's pet, Nugget, a four-year-old miniature Pinscher. The puppies, who look as if they want to change "pitter-patter" into "clap-clap", are four weeks old, but still fit into toddler shoes. The sextet is made up of five females and one male.

## Labor Party Gets Blast In Report on Election

LONDON (Reuters) — Sweeping changes in the structure of the Labor party are called for in a special report published today. It charges that Labor lost the election last May through bad organization.

The biting report, drawn up by a committee appointed by the party leadership, is likely to bring bitter recriminations at Labor's week-long annual conference opening Monday.

In a blunt analysis containing 40 recommendations, the report says: "Even a limited improvement in organization would have won us the election, if only by a narrow margin."

The 30,000-word document gives Labor's organization its worst blasting in party history. And a major row is brewing
