

Mrs. G. W. Cook Entertains At Tea For Visitor In City

The home of Mrs. George W. Cook, 520 Third Avenue West, was the scene yesterday of a delightful afternoon tea held in honor of Mr. Cook's mother, Mrs. George W. Cook, Sr., of Rose Point Farms, Michigan.

"Lovely arrangements of late summer flowers graced the rooms for the enjoyable event at which many Prince Rupert women met Mrs. Cook, Sr., who arrived here a few weeks ago and plans to return to her home shortly."

Income Boost Vital Need If Stork Calls

ROME — When baby comes, an expert said here today, it takes a 25-per-cent raise in income for the family to maintain its accustomed standards of living.

Erland V. Holsten of the Stockholm social welfare board told 500 scientists at the United Nations conference on population that junior's cost starts lower, but rises steadily as the child grows.

STILL WANT CHILDREN

Despite the cost, however, another report indicated that the average wife still wants children.

Uruguay of Bordeaux said his country showed relatively few wives want no children or only one. Most want three.

Dr. Holsten told the experts from 70 countries that his statistics on the cost of children do not include the value of the time parents most devote to their actual care. Nor does it count wear and tear on the household and its furnishings, which for one child he places as averaging 15 per cent of the family's total.

Crash Victims Flown Out

WESTOVER AIR FORCE BASE, Mass (CP)—A United States air force evacuation plane landed here early Tuesday with four injured Canadians and the body of a fifth who died aboard the evacuation plane after all had survived a crash in Greenland.

The five were the only survivors of 15 men aboard a U.S. Air Force Globemaster which crashed and burned Sunday during an emergency landing at Thule, 900 miles from the north pole.

"Men just get in the habit of refusing to dress because they can't get away with it."

Apparently a large group of American wives are keeping the situation well in hand, because the sale of men's formal wear have increased from about \$5,000,000 in 1946 to \$5,000,000 in 1953.

"Most men actually enjoy dressing in the evening," says Rueter. "The trend in recent years has been away from the old-fashioned heavy tuxedos and tails and the starched shirts and collars, to evening clothes that are lighter in weight and more comfortable than business suits."

DOING IT UP BROWN

Now that men are starting to dress again, they're doing the thing up brown, says the author.

They're buying cummerbunds and ties in every color of the rainbow, in plaid, regimental stripes and solid colors.

Next spring — he asserts — you'll be seeing men wearing lightweight silk shantung dinner jackets in the new fad colors — pink, reddish-orange, yellow, charcoal blue, and white.

Greenville Band To Launch Winter Music Season Here

An interesting concert is scheduled to launch Prince Rupert's winter music season with in a few weeks.

It will be a full band concert by the well-known Greenville Concert Band, under the baton of Fred McKay, scheduled for October 1 and 2 at the Civic Centre.

REPLACE INSTRUMENTS

The Prince Rupert Little Theatre is sponsoring the concert, which will mark the band's first public performance here since 1950, and which is designed to raise funds to replace instruments and music which the band lost in a disastrous fire over a year ago.

The highly rated Native band boasts a wide repertoire of both standard and concert band selections designed to please varied tastes.

Many of the musical arrangements lost in the fire can never be replaced, as they were collector's items. However, the band has replaced a considerable number of the lost selections and added new arrangements to its repertoire.

INTERESTING HISTORY

The concert will be interesting to Prince Rupert residents, not only for its musical value but also for the band's history and several unique features, includ-
