LIGHT MINDED - Looking like a king-sized reading lamp, an ultra-modern lamppost, equipped with mercury vapor light, towers over old-fashioned ones that line Washington's Pennsylvania Avenue near the Capitol Building, Six modernly styled lampa.m. by workers going on day posts, five utilizing mercury vapor lights and one, fluorescent bulbs, have been installed. The Capitol's electrical engineering department decided to throw new night on the subject after the report that visitors were avoiding the city's "show avenues" after sunset because of the darkness. The lamp finally selected after the test will be installed the length of Pennsylvania and Constitution Avenues.
