#### Compulsory Sunday School By J. EDGAR HOOVER, FBI

CHALL I make my child go to Sunday School and church? Yes! And with no further discussion about the matter. Startled? Why? How do you answer Juner when he comes to breakfast on Monday morning and announces to you that he is not going to school anymore? You know! Junior goes. How do you answer when Junior comes in very much besmudged and says "I'm not going to take a bath." Junion bathes doesn't he?

Why all this timidity then, in the realm of his Spiritual guidance and growth? Going to let him wait and decide what church he'll go to when he's old enough? Quit your kidding! You didn't wait until you were old enough to decide whether he wants to go to school or not-to start his education. You don't wait until he's old enough to decide whether he wishes to be clean or dirty do you? Do you wait until he's old enough to decide if he wants to take his medicine when he is sick? Do you?

What shall we say when Junior announces he dbesn't like to go to Sunday School and church? That's an easy one to answer. Just be consistent. Hell him "Junior, in our house we all go to church and Sunday School and that includes you." Your firmness and example will furnish a bridge over which youthful rebellion may travel into rich and satisfying experience in personal religious living.

The parents of America can strike a telling blow against the forces which contribute to our juvenile delinquency, if our mothers and fathers will take their children to Sunday School and church regularly.

#### Use Law Not Rifles Urges Wative Brotherhood Member

of British Columbia has advited Indians of the West Bank reserve to use the law instead of rifles to protect their rights. The suggestion follows a report last week that rifle-armed members of the reserve ordered survey crews off research land

being tested for a proposed bridge across Lake Okanagan. "I know the Native Brotherhood will fully support our Okanagan brothers in the defence of their property, but I would urge them to avoid violence and resort to the law instead," said Guy Williams, member of the brotherhood's legislative committee, in an interview here:

He said encroachment on reserve land was another exinimple of "high-handedness" by Citizenship Minister Picker:-

"The minister gave the B.C. government permission to do lie survey work on Indian land without any suggestion that repermission of the Indian council should be sought," Mr. Wil-Miams said.
