Contest Closes Midnight, November 30th, 1955

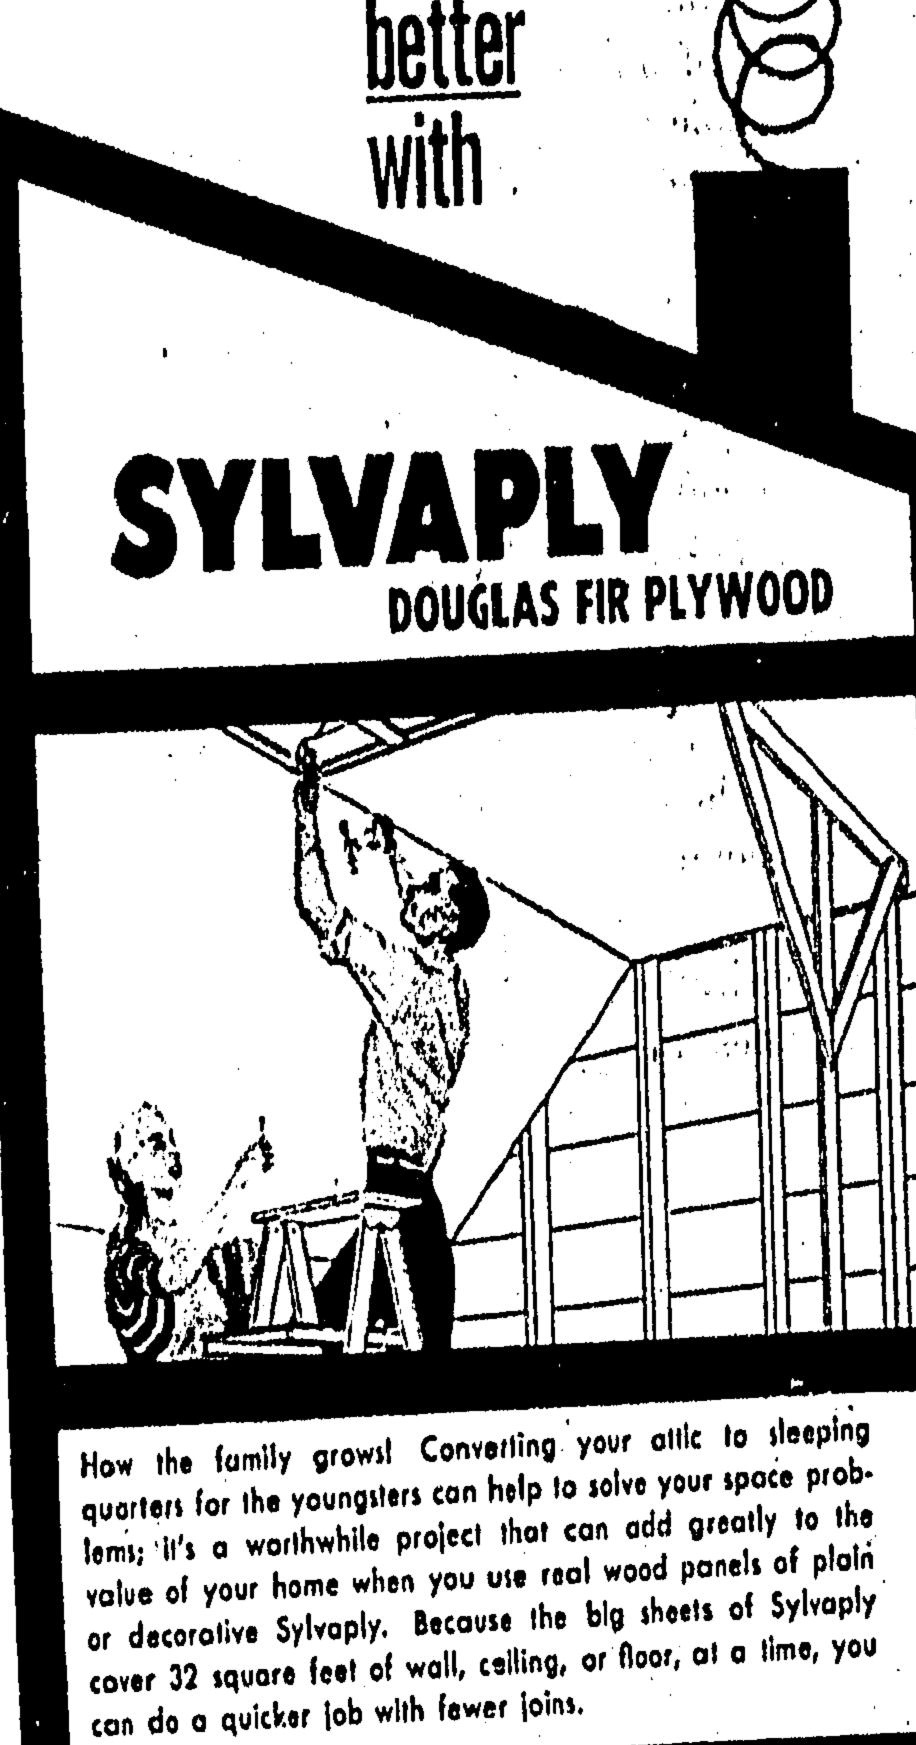

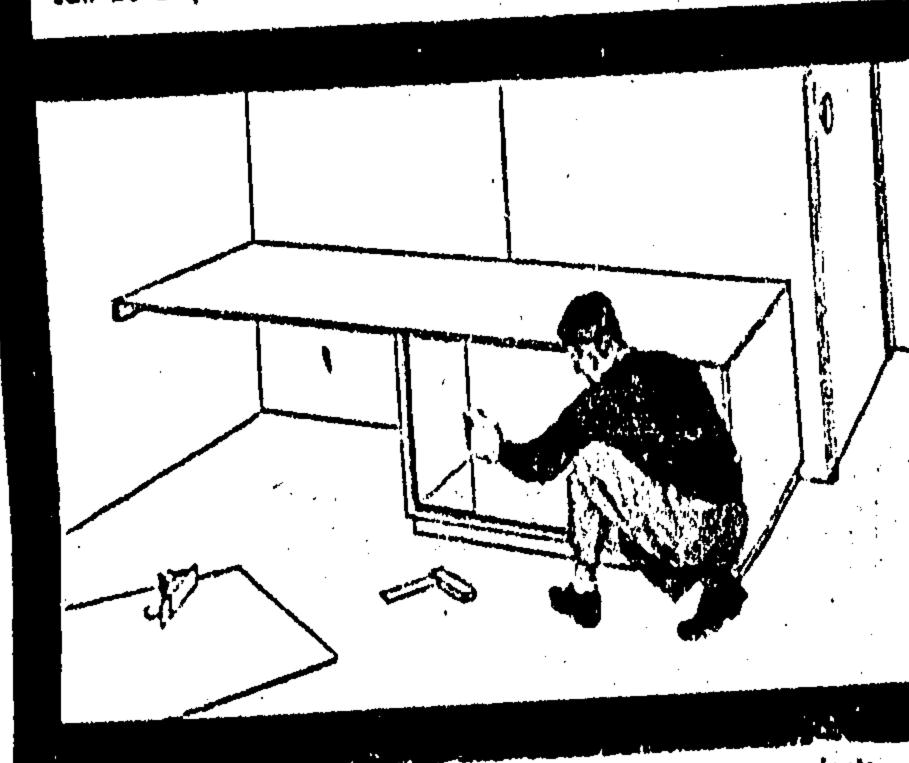

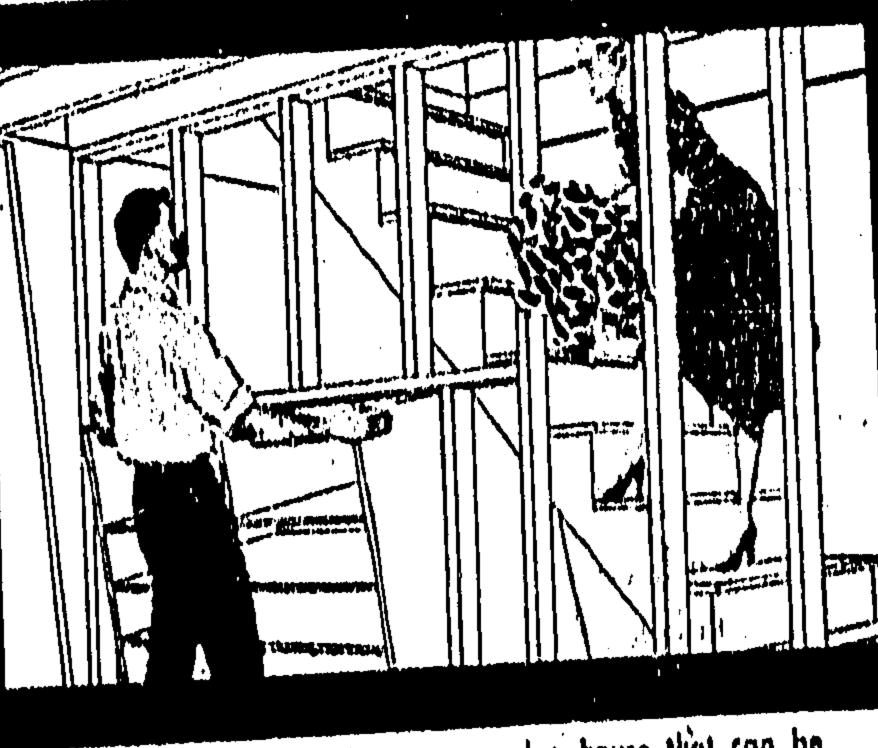

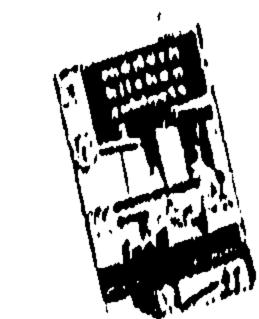

Built-ins, cupboards, and other home improvement projects like this cost less to build with easy to finish, self froming Sylvaply in 5 or 7 ply thicknesses. Sylvaply saws as clean as other woods with power saw or hand saw, nails close to the edge without splitting. And the system of simple glued and nailed butt joints possible with Sylvaply does away with tricky joinery details.

There are just dozens of spots around a house that can be quickly turned into useful storage space with Sylvaply. Because Sylvaply is an engineered wood punel, you can do home improvenient projects easily and at low cost. Easy to saw and nall, easy to finish Sylvaply requires only simple corpontry for cupboards or bullt-ins like the handy under-basement-stairs storage cabinet shown above. This new booklet tells you how to

plan and build modern kitchen cabinets, and it's yours absolutely Irea. Write, phonon or visit your Sylvaply dealer for your copy, or If you profer, write for Kitchen Cabinel Book, MacMillan & Blondel Limited, Box 355; Vancouver, B.C.
