They're talking about Canada the world over

A sew months ago, Jose Caballero, noted Spanish artist, sketched his impression of The Seagram Collection of Paintings while they were exhibited in Madrid at the famed Castellana Hilton, Like Señor Caballero, 30,000 people of Spain took the opportunity in the next two weeks to view these original canvases of 22 of our cities and to see, too, for the first time, a new aspect of a great and growing Canada as reflected in these impressive portraits of our nation's thriving

metropolitan centres. Everywhere these paintings went ... north and south of the equator or on both sides of the Atlantic... they won new friends and favourable comment for Canada. In sixteen cities

along a 30,000-mile international route through 15 foreign lands, more than a quarter of a million J people came to visit them; to observe the skyline of our land, and to try on their lips the unfamiliar. names of our Canadian Cities.

Accompanying the Collection were aspart booklets containing reproductions of the paintings. These were available to all who visited the exhb ' bition. The Seagram Collection is now back home

on a two-year Canadian tour but it continues, through these booklets to build goodwill for Canada abroada In many thousands of homes, the text and pictures of these bookless are keeping Canada talked about the world over.
