WCB Man Coordinator Of 1,000 Mercy Trips

Special to The Daily News An hour . . . a minute . . . even a second may mean the diffcrence between life or death. Time is a big factor when there is the life of a critically injured workman at stake.

Take the case of a workman | ---severely injured at Terrace. His' After business hours and on! employer rushes him to the weekends interior hospitals and nearest hospital for emergency doctors place their calls for treatment. But the attending emergency transportatin directdoctor feels that the man must ly to Frank Green's home in have specialized treatment in Vancouver which means that Vancouver in order to give the Frank is on call twenty-four

SPECIAL DISTINCTION Nova Scotia is the only Canadian province with a flag of its own granted by royal charter.

To Brighten Up The Coming Season

DEPT. STORE

The Workmen's Compensation Board has spent hundreds of thousands of dollars on mercy trips by plane, helicopter, train and ambulance. But this expense is secondary when a life may rang in the balance.

Frank Green has nothing but praise for the Doctors in interior areas and the transportation companies, particularly the airline pilots who at times risk their lives to save the life of an injured workman. Not once in the eight years that Frank has arranged these mercy trips has he ever had to reprimand any transportation company for incompetency. This is a remarkable record and proves that when a life is in danger, people will go to unbelievable lengths to help an injured person.

Sometimes when flying conditions are so bad that all commercial airlines are grounded, Frank must call on the RCAF to carry out a mercy mission. The RCAF will brave seemingly impossible conditions, when they THE MOVIE COLUMN are called upon to do so. Many an injured workman owes his fe to their skill and daring. roud of men like their airline pilots, ambulance drivers and

duty has helped save hundreds of lives. Possibly at this very moment an injured workman is being rushed to a Vancouver hospital by these men.

Royal Winter Fair Visitors Treated As Chuckwagon Racing Hits Toronto

TORONTO: (CP)—Easterners this week are getting their first look at a favorite feature of western fairs—chuckwagon racing.

At the Royal Winter Fair are three Alberta outfits which were invited to appear in the royal's O horse show.

Each night they drive their rigs in two fast laps around the | Coliseum arena—and the crowd | !

"It's been going over real big," said Percy Willis of Turner Valley, owner and driver of one of the four-horse outfits. "We've been exceptionally well received." The other entries are driven by | Danny Gerlitz of Dwinton and Elmer Edworthy of High River.

Neither the horses nor the wagons are the big affairs Calgary Stampede fans are accustomed to-the horses are crosses | between Welsh and Shetland ponies and the wagons weigh about 650 pounds each—but they provide plenty of action in the indoor area.

Willis said the teams frequently race at western horse shows, but this is their first trip east. WHEAT KING VISITS

The fair had one of its most distinguished visitors Monday in Andrew Davidson, the man who made winter fair history by winning England's first world wheat championship.

The 58-year-old Essex farmer, who still speaks with a Scottish burr after 32 years in England,

He said he was as surprised as anyone that the championship. was taken from Canada, where it has been for many years. Mr. Davidson plans to spend about 10 days in Canada before returning to his 500-acre cattle, sheep! and wheat farm.

In the international jumping competition Monday night, the | United States claimed its second | individual win when Hugh Wylie rode Nautical to victory in the !! fault and out event.

Canada gained its first placing when Doug Cudney on Blaney Try Daily News Classified Castle tied for second with Pat Smythe of Britain on Carousel
