## Answers for 1958

TAILY NEWS columnist Elmore Philpott has again posed 10 tricky questions for his Beard of the Prophet contest for 1958 and once more we are ready to stick out our neck. Last year we missed the boat by several questions not dreaming that the West was going to lose its grip on the Grey Cup or that illness would force Sir Anthony Eden to resign.

Dr. L. M. Greene of Prince Rupert, however, and Jerry Brda of Vancouver shared top honors in the province by guessing right on all 10 questions.

Here are our answers for the 1958 quiz. The freward for getting all the answers correct, Mr. Philpott says, awaits us in heaven. Right or wrong, chances of us receiving our reward are therefore

(1) Will a rocket from the earth reach the moon ! in 1958? No. The Russians may make gains on their present space victories but will not attain the moon.

(2) Will Princess Margaret be married in 1958? No. After the Townsend incident and Princess Mar-; garet not reportedly having a serious attachment for anyone else at the moment we doubt if the princess will be marrying for some time.

(3) Will Canada regain the world ice hockey championship in 1958? Yes. While the Russian hockey team gained considerable experience from its recent visit we feel Whitby Dunlops will do right by Canada at Oslo in March.

(4) Will the number of unemployed Canadians be higher or lower on December 1, 1958 than it was on December 1, 1957? Higher. While the spring and summer will see a marked drop in unemployment we believe there will be actually more without jobs at the end of this year.

(5) Will scientists make an important major discovery about the nature of cancer or the treatment for cancer in 1958? This means a "breakthrough" not just a routine advance. Yes. With advances being made in all other branches of medicine and science we feel that something major to benefit ; sufferers from cancer will be discovered this year.

(6) Will the United States and Russia agree to any kind of armament limitation, which would have the effect of lessening international tension in 1958? No. With no sign of John Foster Dulles being removed from office, the United States and the Soviet Union will be as far apart at the end of this year as they were at the end of 1957.

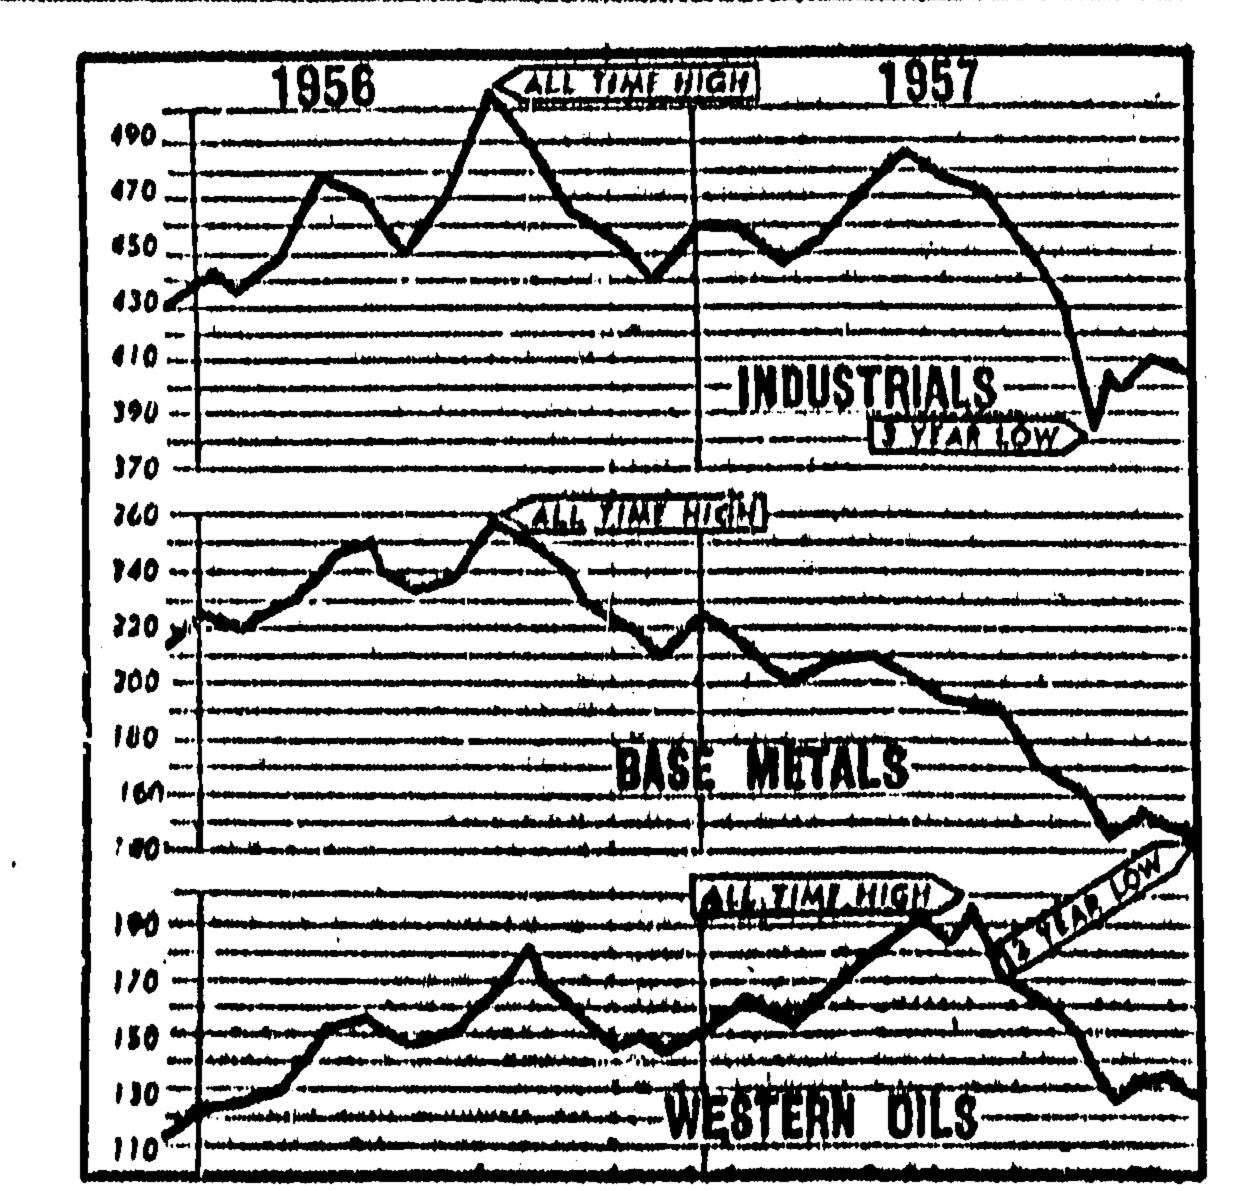

(7) Will Canada extend official diplomatic recognition to the present Communist government of China in 1958? Yes. Increased demands for extension of Canadian markets will cause the Conservative government to recognize and trade with China.

(8) In view of President Eisenhower's recent illness there is some doubt as to his ability to carry on his duties for his full term. Will Dwight Eisenhower still be president of the United States on December 1, 1958? Yes. We see no improvement in the situation regarding the presidency of the U.S.A.

(9) Will there be another federal election in Canada in 1958? Yes. We don't know about another election but there will be a federal election for the Conservatives to test their strength and make sure they have the confidence of the Canadian people.

(10) Will John Diefenbaker still be Prime Minister of Canada on December 1, 1958? Yes. With the Liberal stranglehold on Quebec considerably weakened we fell that the Conservatives will be returned to office and John Diefenbaker will still be Prime Minister.

Who is the greatest in the kingdom of Heaven? Matt, 18:1. It is he who is the servant of all.

HIGHE AND LOWE --- This chart shows the movements of inclustrials, base metals and western olls on the Toronto Stock Exchange for 1956 and 1957. Industrials hit an all-time high in 1956 and a three-year low in 1957, as did base metals. Western oils hit an all-time high in 1957.
